In the beginning...

The Opening Day of Needham B. Broughton High School

Early Tuesday morning, September 3, 1929, a school bell heralded the official opening of the new Raleigh high school. One of the city's most beautiful pieces of architecture, this new school was situated on the crest of a hill, overlooking the city of Raleigh. The morning sun fell upon its high turrets as countless students and teachers hurried about inside the building.

Confusion reigned supreme. Girls in short, long-waisted dresses and boys in starched, high-collared shirts (typical "first day of school" outfits) searched for their classrooms. They wandered down the long corridors that still reeked with the odors of wax and fresh paint.

No classes met on this eventful opening day; however, the faculty was given the "once over" by the students, and everyone was satisfied with their new "educators-to-be." With Mr. Paul S. Daniel, the former principal of the Junior High School, as the new principal, everything seemed to be in very competent hands.

Landscaping and grading were still badly needed on the grounds; and inside, no linoleum protected the floors. The clock tower had no clock, only a cavernous hole which was intended to hold the timepiece. No desks, books, chairs, or typewriters were available.

In spite of the many inconveniences and the confusion of this opening day, no one seemed to lose the enthusiasm and the school spirit which pervaded throughout the new building. This same spirit has lasted throughout its twenty-five years.

"Our government is the potent, the omnipresent teacher. For good or for ill, it teaches the whole people by its example... If the government becomes a lawbreaker, it breeds contempt for the law; it invites every man to become a law unto himself; it invites anarchy... To declare that in the administration of criminal law the end justifies the means—to declare that the government may commit crimes in order to secure the conviction of a private criminal—would bring terrible retribution." This was quoted by Timothy McVeigh during his formal sentence to death in 1997 for the bombing of the federal building in Oklahoma • **Jul. 31** Color movies • **Sep. 21 1st** *My Weekly Reader* • **Oct. 2** *Opus Dei* founded • **Oct. 15** Graf Zeppelin transatlantic commercial flight • **Nov. 18** *Steamboat Willie*, starring Mickey Mouse • **Nov. 22** Ravel's *Bolero* • **Dec. 13** Clip-on tie • **In 1928: Coming of Age in Samoa** by Margaret Mead • *A House at Pooh Corner* by A.A. The Dow dropped 11.7%. "Black Tuesday" was the worst day of the market crash, as panicked survivors dumped 16 million shares on the market. Prices collapsed amid panic selling, and thousands of investors were wiped out as America's Great Depression began. On Wall Street prices plunged \$14 million. By mid-November, \$30 billion of the \$80 billion worth of stocks listed in September were wiped out. Stocks continued to slide until 1932, but the fear caused by the crash made Americans unwilling to buy or invest, and the economy slowly worsened into the Great Depression. ...Broughton opens its doors

In 1928 construction was begun on a building, designed by William Henley Dietrick, an adaptation of Renaissance architecture, occupying a ten-acre knoll on the Smallwood property on Saint Mary's Street.

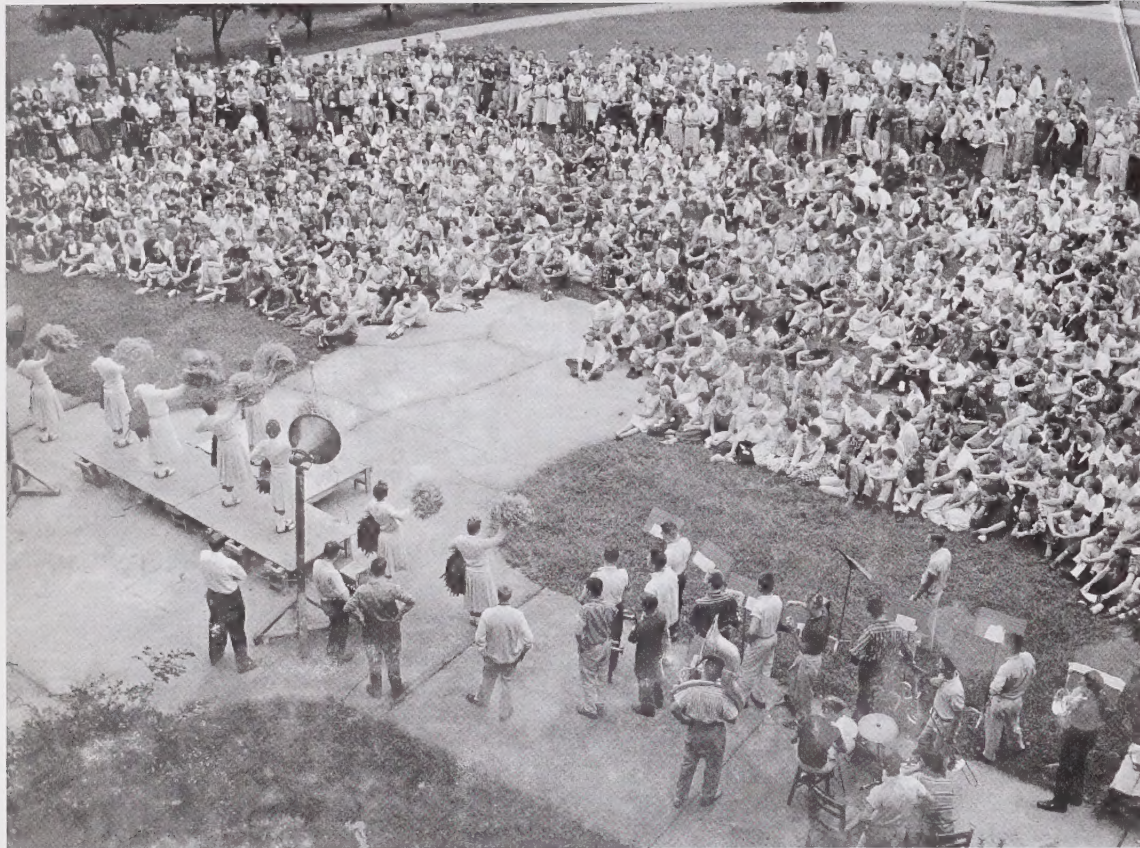

Because of various delays during the year of construction, the school was not ready for occupancy when the fall term began in 1929. There was no linoleum on the floors and only a hole in the tower for the clock. Work was necessary during school hours in order to complete the building and students were always ready with various comments. "When do we eat?" was heard when the cafeteria was flooded, but food was served in the unfinished auditorium. On December 13, the auditorium, with seating capacity of 1,500, was ready for student assembly. In 1930 the building was completed.

Not until the close of the first year was the school known other than the New High School of West Raleigh. At this time the building was named in memory of Needham B. Broughton. The name was suggested by Mr. C. B. Edwards, a business associate in Edwards and Broughton Printing Company. Mr. Edwards wrote, "I respectfully suggest that it be named the Broughton High School for Needham B. Broughton who served on the school committee for many years and who did faithful work as long as he was on it. I know him and associated with him in boyhood and was in business with him for about forty years. I do not think there is a man in Raleigh who helped more young people and did more for the upbuilding of our city and its public institutions according to his means." Mr. Edwards' suggestion was accepted by the public thus naming one of the South's most beautiful schools, Needham B. Broughton High School.

The year 1929 was a year of beginnings. For many of the citizens of the United States it was the beginning of a period of great despair and poverty, the beginning of the worst depression in American history. For us 1929 marks another beginning: the birth of our school. In September of that year Needham Broughton High School opened its doors, and for the first time heard echoing through its corridors the laughter and voices of boys and girls. Today the students of Needham Broughton High School are pausing to look back at that year, and the years that followed in commemoration of our school's 25th anniversary.

Julian Wills Bradley
Raleigh, North Carolina

Spouse: Elizabeth Clay Bradley

Education: B.S. Pharmacy, UNC '63; post grad work in health administration at Duke University.

Career: Retail pharmacist. Consultant, NC Department of Human Resources; consultant, NC Hospital Association, Managed Health Systems Group.
Retired

Hobbies and interests: Docent, NC Museum of Art. Landscape painting (above left). Rediscovering 50/60s jazz and classical impressionists.

Along the Way: I discovered world beauty with my wife on Windstar cruises to Tahiti, Greece, Monaco, and on trips to South America—Argentina, Chile, Brazil—as well as Italy. Mostly I have appreciated the simple life with the cultural richness of Brevard NC. We plan to retire in Brevard.

Favorite Teacher: Mrs. Nell Kahdy.

Best Classes: Mrs. Love's physiology and anatomy, Miss Freeman's chemistry.

Worst Class: American history.

Memories: Being part of Mr. Bob Barne's symphonic band and the Marching 100. Being encouraged by Mrs. Erlich and Mrs. Khady. Firm discipline from Mr. Holyfield, in a kind but sincere manner. Meeting new lifelong friends and appreciating those from as far back as second grade. Discovery with boundaries. Feeling just okay.

What I have Learned: That Raleigh in the 40s and 50s was ideal.

My Guiding Philosophy: Continue to choose the right thing, and when I don't—or they don't—forgive us. Help others unconditionally.

Reggie Brown

Reg Steven Brown
Roswell, GA

Spouse: Betsy

Children: Treg Steven, Paige Elizabeth, Lance Christian. Six grandchildren.

Education: Campbell University, B.S. in Business Administration; Wake Forest University, NC State.

Career: Titles and various positions in both sales and human resources, primarily with Marriott Corp., Rockwell International and Sprint Corp. I retired three years ago and have worked 10 months as a consultant since retirement; however, I have re-retired and plan to stay that way.

Hobbies and Interests: Considering "old age" limitations, I still enjoy golf (age and maturity haven't improved my game), reading, working out at the Y, cooking (Betsy took a long break after the kids were off to college) which I enjoy, and of course, babysitting whenever the opportunity presents itself with the wonderful grands.

Along the Way: I am listing some experiences that were interesting at the time and may be something my fellow classmates may not have experienced. Most of my employment involved nationwide travel which gave Betsy and me opportunities to see and experience area, people and things that we might otherwise have missed in our lives. While at Marriott (12 years), I was featured on the cover of the annual report and for six years served as the company's ombudsman. With Rockwell International (7 years), I had the opportunity to go through each section of the Challenger shuttle while on the launch pad at the Cape in Florida. Being associated with the premiere electronics division of Rockwell involving tons of engineers, I served for six years as an industry advisor for the Executive Roundtable, 65 of the top students and faculty at Georgia Tech. Considering the thousands hired with Marriott, Rockwell and Sprint (16 years), it is extremely rewarding to see many of these those hires now running their companies.

From a family point of view, my passion to provide the opportunity for my children to do better than we did has become a reality. Two are CPAs and have their masters, with the third well settled into his own business and a success story. Could my coaching football, basketball and baseball have contributed to their success? Doubtful!!

Favorite Teacher: Mrs. Fleming
Best Class: Spanish
Worst Class: Latin

Reg on the porch of son Treg's and daughter Paige's "second home" in Beaufort, SC.

Memories: The many strong friendships formed over the high school years that seem to be as strong today as they were 50 years ago. Being the last class to go from 8th grade to 12th in itself made us special. Also, when Hugh Morson, the Methodist Orphanage and Broughton were combined to form a single high school—really strange, compared to Raleigh today.

My friends helped create memories that will never be erased. Looking back, these things also bring a smile when remembering: Being our sophomore class president, belonging to the Key Club and the Monogram Club, being president of the Ensemble Group, lettering in football, basketball and track, cocaptain in football (senior year) and earning a four-year grant and aid scholarship at Wake Forest. Broughton prepared us well socially, mentally and maturity-wise to face the world, and I will forever be indebted to my high school experience.

What I Have Learned: That you never stop learning.

Guiding Philosophy: In life, you can always find good, positive things if you search for them.

Spouse: Ken Sanford

Children: Shellie, Sherese, Stephanie.
Six grandchildren.

Education: BA, Meredith College.

Career: Elementary school teacher, 4 years;
church preschool teacher and director, 25 years.
Retired.

Hobbies and Interests: Reading, walking, traveling. Teaching music to children. Bridge. Babysitting grandchildren. Church.

Along the Way: In the past 30 years I have been an advocate for Children under Six, and having them ready for school. I have served on several boards and committees in this pursuit. I lost my first husband of 25 years to cancer, so I believe in striving for a healthy life and enjoying life as long as we are allowed.

Best Class: Algebra
Woirst Class: Latin

Memories: I moved to Baltimore, MD, in January of our junior year and therefore did not graduate

with our class. Over the years, it has been fun to run into Broughton folks at Meredith College and many other places I have lived and traveled. The most fun in recent years is that Judy Ray Brown and I landed in Lake Wylie, SC, in 1990 in the same neighborhood! We have had fun "growing old together."

What I Have Learned: Live each day—life is short.

Guiding Philosophy: Have fun. Laugh. Love.

In the 60s, I embraced the Age of Aquarius, became more aware, but was too busy with small children to notice much.

The United States has yet to enter World War II, and debate about doing so divides the country. Aviator Charles Lindbergh is one of those who speaks out against it. President Franklin Roosevelt has made as many national preparations as he can without a declaration of hostilities. Jewish refugees and their relatives are telling stories of the Holocaust, but the scope of the horror is not yet realized. Children: Traci Wallace and Brad Bowen; two grandsons.

Education: Wake Forest University

Career: Teacher and coach in Wake County schools (15 years at Broughton). Customer education at Siemens/IBM Telecommunications.

Retired.

Hobbies: Travel and hockey...love the Carolina Hurricanes.

Along the Way: Having INSISTED that Wake County schools provide sports opportunities for girls in the early 70s, I coached the first girls volleyball and gymnastics teams at Broughton. The volleyball team won the first ever Cap-8 volleyball championships in 1974 and 1975. My final year of coaching, Britt Asher was the team captain. Thank you, Patty, for sharing her with me and the team.

Volunteering at Wakefield Elementary in grandsons' classes...it has been fun being back in kindergarten. Best trips include rafting through the Grand Canyon for 10 days, hiking the Swiss Gemini Pass from Leukerbad to Kandersteg; snorkeling with grandsons in St. John, USVI.

Sharon H. Cates Norton
Raleigh, North Carolina

Children: Lance and Mark;
one granddaughter

Education: St. Marys; UNC-Chapel Hill,
BA in Education, 1962

Career: I have always been a teacher, but never in a traditional school classroom, as we moved so often, with my husband being in the Navy. I have taught yoga for 18 years at hospitals and various facilities, modeling, exercise, dance, sewing, and even French in an after-school program for elementary age school children! I LOVE to teach.

In the 1990s, I was a motivational/inspirational speaker and spoke to a variety of business groups and organizations around the country. My program was entitled *LIVING SMARTER, MENTAL AND PHYSICAL WELL BEING*.

Semi-retired.

Hobbies and Interests: I have been reading for the blind and visually impaired for the past 15 years. I started in Virginia and now read in North Carolina.

I am a dance captain/teacher with my Senior Rockette dance troupe here in the Triangle area and that is GREAT fun! That love of dance started with being in the Hi-Y kick line at Broughton. We

perform for a variety of audiences all over North Carolina. We especially enjoy entertaining senior groups at clubs, assisted living centers, nursing home and churches, and we have even been to prisons! We also participate in the Senior Games in North Carolina and have won three Gold Medals.

Along the Way: I have been so fortunate to do a lot of traveling and love it and still hope to do more. We lived in Italy for several years in the mid 1970s when my husband was in the Navy, so we had a car and drove all over Europe and just saw SO much. Also, I have been to China, New Zealand, Australia, Hawaii, Alaska, Indonesia and Peru, visitn Machu Pichau. I have a sense of adventure and am SO thankful for those opportunities.

Favorite Teacher: Mrs. Peacock
Best Class: Senior English
Worst Class: Gym in those awful outfits!
Favorite Activity: Hi-Y kickline and Queen of Hearts

Memories: I loved getting to know my fellow classmates and just being part of the whole picture. I enjoyed it all. I feel very fortunate to have participated in such as learning, as well as personal, growth process. I am poud to have had so many kind and smart classmates to enjoy. I am saddened that so many have passed away.

What I Have Learned and Guiding Philosophy: To continue to be open and try new things, meet new people and love and enjoy life. Don't hold grudges. Be kind.

Saluting Our Servicemen

At Westlake High School in Austin, Texas, students designed a Virtual Vietnam Memorial with biographies of about 200 servicemen killed in Vietnam. Lauren Peterson chose Gordon Chadwick, and this is adapted from her presentation. To see the original presentation in full, go to:
<http://whs.eanes.k12.tx.us/virtualvietnam/>

Leon Gordon Chadwick III

At Needham Broughton High School, Gordon was an active participant in many school functions. While in the Student Council, Gordon held the position of Vice-President and Representative while also serving on the Executive and Class Councils and as the Home-room President. In addition to his leadership roles, Gordon also found time to be involved in committees such as School Store, Sports, Spirit, Standards and Monogram Club. Gordon, modeling the all-around cool guy, joined the football and track team and was soon known as Mr. Sports Committee for his contributions to the athletics program.

CAPT. CHADWICK

Although many of Gordon's fellow classmates also served in Vietnam, he was the only one not to return home. Gordon, became an Eagle Scout and received the God and Country Award. In honor of his many contributions to the Hayes Barton United Methodist Church, a scholarship was created in his name along with a tribute in the church's book of memories, according to Burley Mitchell. Gordon attended NC State and then transferred to the University of North Carolina to take a Naval Reserve Officer Training Corps Scholarship. He was the battalion commander of the Navy Reserve Officer Training Corps unit. After graduating, Gordon went on to continue his military training in Quantico, VA, in the summer of 1963 as a Second Lieutenant and First Platoon Commander, recalls Ronald Zobenica. His sister, Rebecca Chadwick, remembers that Gordon aspired to become a pilot, and in early 1964, he advanced on to pre-flight and primary flight training in Pensacola, FL.

On Dec. 5, 1964, Gordon was promoted to First Lieutenant and from there he was deployed to Vietnam. On October 22, 1967, Gordon's helicopter was shot down while on a strafing run in Quang Nam, South Vietnam. He and two other men, Daniel Ben-net and Rodolfo Gonzalez, were killed during Operation SHASTA while covering for an ambushed team

of rifleman being picked up by helicopter transports. He continued to lead the attack firing rockets and machine guns into a large Viet Cong force until all ground forces were safe before being shot down. At the age of 26, Captain Leon Gordon Chadwick III died honoring the Marine Code of never leaving any man behind. Gordon was awarded the Distinguished Flying Cross, Purple Heart, National Defense Service Medal, Vietnam Service Medal, Republic of Vietnam Campaign Service Medal, 13 Air Medals and posthumously received the Silver Star. He served three years in Vietnam with the Marine Observation Squadron 6 Marine Aircraft Group 36 1st Marine Air Wing "Knights of Sylvester".

Gordon was remembered by his close friend Ronald "Zeb" Zobenica as "handsome, aristocratic, athletic, confident, and proper with a soft southern accent right out of *Gone With the Wind*. His childhood classmate, Randle Carpenter, recalls that "Gordon told us on multiple occasions that he was going to join the army, learn to fly and die in combat. We have taken consolation in the fact that Gordon lived just the life he wanted and died not necessarily for some greater national cause, but doing what he knew he could and should, trying his best to save those around him."

...

Fellow Marine Victor Britt painted a picture of Gordon's final mission for Perspectives.

Gordon knew there were a lot of bad guys where he was going, and that his helicopter would be recognized as a gunship. He knew the VC's guns would be trained on him from the moment he came into view, because he was trying to kill them. Gordon's approach speed to the target would have been less than 100 mph. His course would have been fairly steady, which makes your shooting more accurate. But a helicopter is a big target, and a steady course makes it easier for the VC to shoot you. Gordon would have seen the flashes from the guns that were shooting at him, and he had nothing to hide behind. Gordon received the Silver Star for his actions, and he was a first lieutenant at the time. In 1996, the Marine Corps was pretty conservative about giving out medals, and they didn't toss the Silver Star around just because you happened to die, and certainly not to lieutenants. It took big kahunas to do what he did.

...

Web guru Hunter George was instrumental in getting the word out about Lauren's project and rounding up contributors. Vic Britt's tribute was inspired by a comment on his form about Gordon. Vic swears that last sentence means "a big heart."

Ann Clark

Ann Ione Clark Bellinger
Oxford, Maryland

Spouse: Edgar

Children: Jack, Julie, Jennifer; four grandchildren, five stepgrandchildren.

Education: St. Mary's

Career and Along the Way: I started my career as a domestic goddess, when I married the first of two Prince Charmings. Twenty years later, I moved from Mt. Airy to the Washington, DC, area where I landed a fabulous job in the private sector, two blocks from the White House. I managed apartment buildings and condos and met Prince Charming #2. We married in 1989, and I was let loose in DC and Chevy Chase society. Having done that, we moved to the Eastern Shore of Maryland, the Land of Pleasant Living. We have spent many happy hours boating and hanging out at bars. Edgar is a retired attorney who doesn't quite get "For better, for worse, but never for lunch." We have been very active in BBI (Boat Bums International), a fun-for-charity group and both served as Commodores. I also volunteer at Chesapeake Bay Maritime Museum and also Hospice, where I cook dinners. My duet partner and I play for the annual Festival of Trees. We have also raised three beautiful yellow Labs—Molly, Maggie and Mo. We now have only Mo and a fluffy yellow cat.

P.S. Sally Marshall Hayes Levine Stevens and I, Ann Ione Clark Stevens, became sisters-in-law in 1974. This is no longer the case.

At 17 with Gordon Welsh

Hobbies: My current hobbies are piano, tennis, cooking. My passion is gardening, and especially growing trees. In the past, I have been active in garden clubs, book clubs, bridge clubs, vestry member, art guild and flower guild.

Favorite Teacher: Mr. Bello

Best Class: English—Miss Penney, Mrs. Peacock

Worst Class: Geometry

Favorite Activity: Giggling.

Memories: I have loved being a member of the Class of '58, although I have not lived in Raleigh since 1962, I have always come back to visit as often as possible. I love the opportunity we all had to grow up in the "Happy Days" scenario, when times were innocent, and so were we. The team spirit for all the sports was exhilarating. The wonderful formal dances held in the gym were so special (especially when we tried to sit down or get in a car with our hoop skirts and crinolines. I have been fortunate to have been on many trips to Europe, but the one that stands out the most was a trip in 1984 with the Raleigh and Mt. Airy girls. Sara Griffin nearly got us kicked out of the U.S. Embassy in Paris, for getting so tickled.

What I have Learned since Broughton: Make new friends, but keep the old. Never let the truth get in the way of a good story.

Guiding Philosophy: Do unto others as you would have them do to you. Always look on the bright side. No good deed goes unpunished.

In the 60s, I...embraced the Age of Aquarius, was too busy with small children to notice. The 60s are a little fuzzy. What was the question again?

Daydreams and Life Directions

My first career daydreams revolved around being a concert pianist or a foreign missionary
Then practicality reared its head ...

Christian education or social work seemed more appropriate to my gifts
And always there were hopes of being a wife or mother.

Slowly the first dreams faded

And preparation done in college for church or social work even took a back seat

To the most priceless opportunities for loving and caring...

Within just five years God gave me a gentle, witty husband and three precious children.

Looking back upon my life now I see

Those early daydreams of serving God through music, Christian education, or social work

Have been fulfilled after all...

Hopefully along paths that *God* was choosing for me.

As for many years I ministered

Through music and education

Playing for worship services and mentoring piano students

And loving and teaching hundreds of children in school and preschool.

And now I still serve through music

I still serve through teaching...

My granddaughters and the Angel Choir among others

And sometime I volunteer to help in my community.

Having been so blessed, I must pass it on...

In the 60s, I...was too busy with small children to notice.

Hobbies and interests: Piano, walking, embroidering and quilting baby quilts (re: grandchildren); saving the environment; being with friends.

Favorite Teachers: Lou Bello, Mary Penney

Memories: Friday night football games, coke parties, slumber parties, dances, playing piano for the Hi-Y kickline, Y-teens, singing win the Banana Boat Trio with Margaret Walker and Sara Lee Wilson. Development of lifelong friendships, making booklets for Miss Penney's English classes, working as an office assistant for Mrs. Sandling, Gilmartin, after-school hanging out at Kerr Drug in Cameron Village ("The Village").

Guiding Philosophy: Having been so blessed, I must pass it on.

Patty Gail Cooper Asher Raleigh, North Carolina

Spouse: Bobby Asher (dec.)

Children: Sheri, Britt, David

Education: BA UNC-Greensboro

Career: Modeling, home interiors, teaching 28 years, tutoring.

Hobbies and Interests: Since retiring, I have enjoyed traveling and have become quite a "beach bum."

Along the Way: Much of my volunteer work involved supporting my three children in their school activities, sporting events and life endeavors. They are my pride and joy. I was active in the Raleigh Junior Woman's Club and received the Ada Morris Service Awards in 69-70. My granddaughter Carlie has juvenile arthritis, and I have participated in many walks to raise awareness. My grandson Cooper weighed one pound at birth. We are active in the Duke Childrens Miracle Network. He IS a miracle. Both are doing great, as well as my other four grandchildren. They are great fun! My passion has been teaching children that learning is fun. I was honored at my school with a room designated the Asher Room. My family established a scholarship at the school in honor of my husband, Bobby.

Favorite Teacher: Mr. Bello

Best Class: Mrs. Paschal's Hi-Times class

Worst class: Geometry

Favorite Activity: Cheerleading

Memories: Meeting your boyfriend at your locker, football and basketball games, Queen of Hearts and Snowball dances, cheering, serving as a marshal senior year, making lifetime friends and best of all, meeting the love of my life there. More recent memories are walking those same Broughton halls as a parent—watching my son play soccer there and being the mother of the Queen of Hearts!

What I Have Learned: We were lucky to grow up in the 50s in Raleigh where we had superior teachers and administration at NBHS. I wish every child could have the safe, loving environment we had.

Guiding Philosophy: Live—laugh—love. Enjoy every moment, think positively and look forward to the next exciting experience.

That initial discovery by the Bedouins yielded seven scrolls and began a search that lasted nearly a decade and eventually produced thousands of scroll fragments from eleven caves. During those same years, archaeologists searching for a habitation close to the caves that might help identify the people who deposited the scrolls, excavated the Qumran ruin, a complex of structures located on a barren terrace between the cliffs where the caves are found and the Dead Sea. Within a fairly short time after their discovery, historical, paleographic, and linguistic evidence, as well as carbon-14 dating, established that the scrolls and the Qumran ruin dated from the third century B.C.E. to 68 C.E. They were indeed ancient! Coming from the late Second Temple Period, a time when Jesus of Nazareth lived, they are older than any other surviving biblical manuscripts by almost one thousand years."

Favorite Teachers: Mrs. Wasserman and Mrs. Peacock;

Best Class: English

Worst Class: Physics taught by a gym teacher.

Favorite Activity: Drama

Memories: (1) Spanish class with a tight curly haired, heavy red lipsticked Spanish teacher; (2) Mrs. Peacock going up and down the aisles raving

about literature; (3) great basketball games while sitting on wooden bleachers in the middle of the winter; (4) fantastic football games at the baseball park on Friday evenings followed by a trip to Honey's Restaurant for snacks; (5) personally meeting Martin Luther King one Monday night in the Broughton Auditorium as I worked the stage for his campaign for civil rights; (6) winning the N. C. State "Best Male High School Actor" award at the UNC Playhouse in 1958. (7) some of my first great friendships in life came from my years at Broughton.

What I Have Learned since Broughton and Some of My Guiding Philosophy: (1) I am greater than my thoughts; so, once parts don't fit, I throw away the ones that don't. (2) The only time in life I can coast is when I am going downhill. So, I persistently seek personal growth, development and progress in my physical, mental, social, emotional and spiritual life. (3) Nourish friendships. (4) I read to know I am not alone. (5) I try to think like a man of action and act like a man of thought. (6) To will without love is manipulation.

Becky Fuquay

Rebecca Ann Fuquay Yates
Raleigh, North Carolina

Spouse: Graham
Children: Christy and Tracy; one grandchild.

Education: Peace College.

Career: Secretary with GMAC until 1967 when first child born. 1986-present, proofreader with the NC General Assembly, 10 of those years as supervisor of the department.

Semiretired: I work two days a week when the legislature is in session.

Hobbies and Interests: Traveling and spending as much time as possible with one-year-old grandson in San Diego.

Along the Way: Lots of special travel while Graham was still working—San Francisco, Hawaii, Mexico, Hong Kong, Australia, St. Thomas, Puerto Rico, Jamaica, Haiti, St. Kitts, St. Martin, Aruba, Brazil, England, Scotland, France, Spain, Morocco. Driving rour of the USA since we retired.

On her wedding day, daughter Tracy (left) with Becky and daughter Cristy.

Since having ovarian cancer in 1998, I have been actively involved in a walk to raise money for ovarian cancer research at Duke University where I was treated. The walk is held every year in September—this year it is on September 27.

I am also involved in a new program at Duke—Survivors Teaching Students. We talk to third-year medical students about our experiences with cancer so that, hopefully, they are more aware of what to listen for when their patients are presenting their complaints. This program is in 200 universities in the United States, and we expect that it will soon be included at the other medical schools in North Carolina.

Favorite Teacher: Miss Paschal
Best Class: Miss Penney's English
Worst Class: Miss Cogdell's Geometry
Favorite Activity: Chorus.

Memories: Dancing in the gym at lunch. Being put out a good distance from the parking lot, so no one would see my dad's truck! Imagine that today—he was ahead of his time! Other days riding with Ida Mae Johnson in her new '57 Ford. Riding with a group of girls—everyone smoking—in Betsy Lewis's red and white Studebaker Hawk.

What I Have Learned: As I distanced myself from high school, and went without completing my college education, I appreciated more and more the education I received at Broughton.

Guiding Philosophy: Treat others as you would like to be treated.

In the 60s, I...was too busy with small children to notice.

Becky Fuquay, Betsy Lewis, Ida Mae Johnson, and Faylene Poole sell Christmas wrapping paper as a part of their senior project.

SENIORS—SERVE AND SELL

The Senior Class decided on two projects for their Senior year. Selling Christmas wrapping paper was selected as the money-making project and clearing all third-floor homerooms was chosen for the service project.

On November 14, the selling of Christmas wrapping paper was initiated. Each Senior student was given a box of paper to sell. To begin the sales, Pat Morgan, chairman of the Senior Service Committee, appointed Bryan Van Noy as co-chairman of clearing and collecting money. Jimmy Durham and Jimmy Sewell, co-chairmen of distribution, Betsy Stevens and Sylvia Nask, co-chairmen of publicity. Serving on these committees were: Don Lee, Tommie Medlin, Lynwood Radeout, Larry Gibson, and Dayne Brown. With the aid of homeroom presidents, secretaries, and treasurers, 2,053 boxes of paper were sold at a profit of \$1,028.50.

On December 14, eighty-four seniors, six from each homeroom, began the service project of cleaning up third-floor homerooms. Boards, windows, floors, desks, blinds and walls were cleaned. Pat Morgan appointed Margaret Walker, chairman of the telephone committee, and Billy Simmons, president, called the first meeting of the class of '69 to order on December 4.

Education: Peace College, Atlantic Christian College.

Career: Primary teacher (K-3) with Norfolk, VA, system.

Retired.

Hobbies and Interests: Learning to play the piano (again!)

Pets —working with older adults. Flowers—working in yard.

Volunteer work, SPCA.

Along the Way: Office volunteer, First Presbyterian Church, deacon, received life membership in Presbyterian Women, plan adult fellowship trips (Chicago, Connecticut, New York, Myrtle Beach). Enjoy traveling to see former high school and college classmates—Colorado, New York, Florida, Kansas, Georgia. Big trip to Paris, France, in 2004.

Favorite Teacher: Miss Paschal.

Best Class: Many were good—French, biology.

Worst Class: Geometry. She was helpful, but I just could not understand all the angles!

Memories: 1) Office assistant to Dean of Women, Mrs. Sandlin.

2) Working on the Latipac in journalism class.

3) Marching 100 band.

4) Working on Homecoming floats.

5) Football games on Friday nights and pep rallies.

6) Assemblies—Queen of Hearts, National Honor Society, etc.

7) Being with many classmates from Sherwood Bates, 8-12 through graduation.

8) Riding home and other places in Betsy Martin's 1940 Ford. It had a radiator leak, and we had to keep refilling it.

9) Gilmartin tests each Friday (not sure it was a favorite).

What I Have Learned: I was very fortunate to have graduated from a school so respected in the community. I am very grateful and try to live by all the standards that the teachers tried to instill in us each day.

Guiding Philosophy: Live, laugh, love. Enjoy each day to the fullest because we do not know what tomorrow will bring for us.

In the 60s, I...became more aware. The 60s are a little fuzzy. What was the question again?

Pat Goodwin

Patricial Ann Goodwin Askew
Tampa, Florida

Spouse: Phil (dec.)

Children: Rob, Jim; three grandchildren

Education: Peace College, Hillsborough Community College.

Career: Executive secretary, administrative assistant, engineering secretary, medical assistant, medical secretary, medical transcriptionist, specialist in radiology, neurology, cardiology, pulmonology.

Retired.

Hobbies and Interests: Current interests include reading, gardening, animal rights, walk-a-thons benefitting Humane Society and autism research, Jazzercise. Also enjoy crossword puzzles and attending concerts.

Along the Way: My most fun vacation recently included my first ride on the back of my nephew's ATV down the side of Sassafras Mountain during an unexpected snowstorm in Jasper, GA. My real passions include anything involving animals. I support several organizations, including Defenders of Wildlife, National Wildlife Federation ASPCA, and U.S. Humane Society with my contributions. I "adopted" a wolf one time. My other passion involves autism (especially research), as my four-year-old grandson is autistic, diagnosed at the age of two.

Favorite Teacher: Mrs. Sharp

Best Class: English

Worst Class: Math (least favorite)

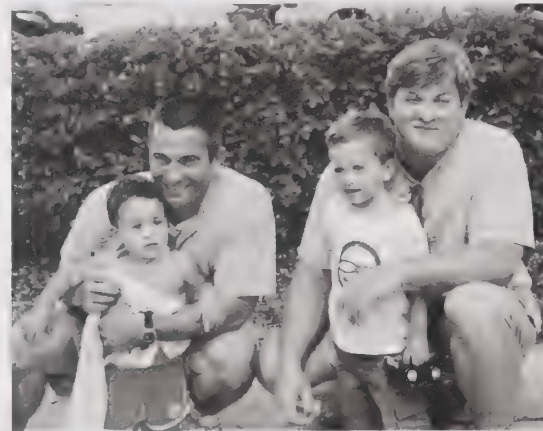

Favorite Activity: Participating in symphonic and marching bands.

Memories: Nothing specific—just hanging out with friends, after school band practice. Also band

trip to Miami, FL, on the train to participate in state competition. The band earned the money through contributions and activities.

As a teen, weekends spent at Hayes Barton swimming pool and Brooks Skating Rink. I have continued skating up until recently—I still have the skates.

From left, son Jim with his son, Ezekiel, and son Ron with his son, Jake.

What I Have Learned: Life is short, so don't waste a lot of time "planning." Things can change on the turn of a dime. Also keep your faith and trust God.

Guiding Philosophy: Don't sweat not only the small stuff, but the large stuff as well. Life sorts itself out.

In the 60s, I...embraced the Age of Aquarius and became more aware.

Annie Joe Griffin

Annie Joe Griffin Rochelle
Clayton, North Carolina

Spouse: Sonnie

Children: Bobbie Joe and Jenny Kirk; four grandchildren. Blended family: five children, nine grandchildren, five great-grandchildren.

Education: Peace College

Career: Secretary, NC State University
Retired.

Along the Way: At the end of 1997, after 30 years of state service, I retired from NC State University, where I was employed as an administrative secretary in the Office of Continuing Education. My husband, Sonnie, sold his independent insurance agency located in Knightdale, and we began enjoying a life of retirement.

We now live in Cape Coral, FL, from November until June, and in Clayton, NC, from June until the end of October. We enjoy living on a canal and have a boat in Florida and enjoy being on a golf course in Clayton. Life is a constant vacation!

When we first moved to Cape Coral, I began taking tap dancing classes. Each year our group put on a two-hour sellout performance of 20 dance routines with costume changes for each dance. Sonnie worked backstage as stage manager. It was a lot of fun that we enjoyed for nine years.

Bob Howell and I were married in 1961. We had two daughters who have given us four grandchildren and two great grandchildren. I am enjoying being a grandmother and a great-grandmother. When we are in Clayton, we are all within 30 minutes of each other, so NC time is family time.

HI-TIMES

The members of the Ensemble are as follows: Tenors—Jimmy Barefoot, Walter Richardson, Melford Luther, Ronnie Bishop; Bases—Redgi Brown, Simon Dixon, Don Edge, Ray Luther, Fred Partin, Cedric Wing; Sopranos—Mary Elizabeth Benton, Nancy Dennis, Vista Edwards, Janet Hicks, Ann Hocutt, Ann Swindell, Linda Whitworth; Altos—Beth Hedden, Mary Beaty, Nancy Clark, Shara Shepherd; Accompanist—Linda Douglas. Director, Mrs. Freeman.

Mixed Chorus, Orchestra and Ensemble Present Christmas Program For PTA and Student Body

The same Christmas program was given for the P.T.A. and the entire school by the members of the mixed chorus, the choral ensemble and the Orchestra. The P.T.A. program was presented on Monday night, December 16; the one for the student body on December 17. Margaret Walker read the Christmas story as told in the Bible from the prophecy to the fulfillment. The orchestra accompanied the mixed chorus and the ensemble in songs typical of the Christmas season. Their first number was "Christmas Day," and their last the "Hallelujah Chorus."

Mrs. J. P. Freeman conducted the Ensemble; Richard Southwick conducted the orchestra. Linda Douglas and Susan Biount Hill accompanied at the piano; David Perry played the organ. Donald Edge, Bonnie Archer, Beth Hedden, Ann Hocutt, Vista Edwards, Nancy Dennis, Sarah Levine, Mary Beaty, Jean Fuller, Jo Crowder, Panthea Gupton, Walter Richardson, Jimmy Barefoot, Roy Luther, Fred Partin, Simon Dixon, Linda Whitworth, Melford Luther, Lymon Ferrul, Mary Benton, Ronnie Bishop and Janet

Hicks had a special part on the program.

The following NBHS students are among the semi-finalists in the National Merit Scholarship exams: Neil Briggs, Paul Burroughs, Tom Cannon, Betty Jane Gardner, Belmay Hamilton, William Hurt, Bub Pierson, Alton Tripp, Anne Tyler, Roger Williams, Raymond Winton, and Mike Wise.

Dave Gullette

David Gullette
Newton, Massachusetts

Spouse: Margaret Morganroth Gullette
Children: Sean Leland Sebastian Gullette; one grandchild.

Everything Else: I left Raleigh for Boston in the Fall of 1958 and...here I'm supposed to say I never looked back, but that would not be true. I went off to Harvard full of that same conceited self-regard and wise-ass arrogance that must have made being my friend at Broughton a real chore.

I have written about what growing up white and liberal in the North Carolina of the late 50s meant for me. A short story of mine involving race and being a lifeguard at Fort Macon State Park will be published in the Fall issue of *Ploughshares* (a magazine I helped found in Cambridge in the 70s). If you can't locate it or don't have a subscription (you should), email me (david.gullette@simmons.edu) and I'll send you a copy.

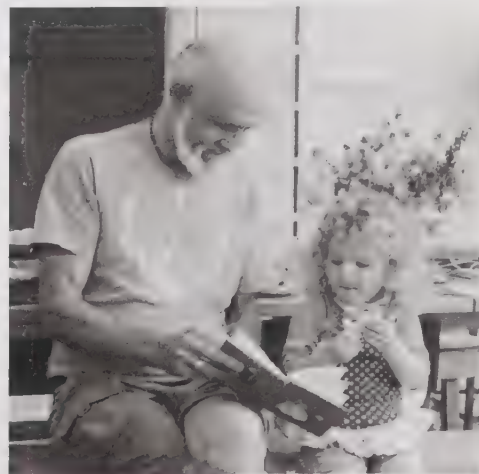

Anyway, I had an increasingly jolly time at Harvard, chasing girls, learning the tricks you need to cruise effortlessly to good grades, earning a varsity letter in swimming and then falling in love with theatre and becoming a serious actor. (Was it June or Helen I held in my arms back onstage at Broughton in James Barry's *The Bishop Misbehaves*, kissing her and snarling, "You silly little idiot. Let's take the night boat to Dieppe!"?)

At Harvard I met a Jewish girl from Brooklyn who wore turtleneck sweaters, smoked Gauloises, and read Proust in the original. I was done for. I still am, happily married to her these 44 years later.

After a miserable year at UC Berkeley, I went right into the PhD program in English at UNC. I lived with our classmate Macon Richardson (a.k.a. "Captain Offset" because he was an expert offset printer and could earn enough in a week to keep us in beer and grub for a month). We grew Interesting Plants down in the woods behind Luther Hodges' house and made homebrew in a plastic garbage bin. I got involved in the civil rights movement in Chapel Hill (see John Ehle's *The Free Men*) and at Christmas my beloved (who was finishing her M.A. at Berkeley) came south/east and we got engaged in Raleigh and married the following Summer Solstice on her cousin's estate in Westchester County.

My big midlife earthquake was stumbling on Nicaragua. I went down in '85 with an Episcopal priest friend of mine from New York City and fell in love with the Sandinista Revolution. I've written two books about Nicaraguan revolutionary poetry (look 'em up on abebooks.com, or if you have to, amazon). In '88 I joined some activists in Newton, MA, where I live, to form a Sister City Project with a small port town on the Nicaraguan Pacific coast, San Juan del Sur. You can read about our work there at www.newtonsanjuan.org

Our son Sean married a famous Moroccan photographer, Yto Barrada; they live in Tangier with our darling granddaughter, Vega Violet Alia Barrada Gullette, who jabbars away in English, French and Arabic. At two going on three, Vega (a.k.a. Vivi) looks like a cross between my tow-headed brother Rob and my curly-headed blond mother when they were that age. Our dead play hide-and-seek in the gene pool and keep popping up to the surface when the new kids come drifting into view, like inflatable ghosts.

Spouse: Van Johnson

Children: Robert Kendall Hill, Leigh Hill Barbee;
two grandchildren.

Education: Peace College.

Career: Secretary, homemaker, bank teller, my
lawn and farm mower—not gardening, just mow-
ing. **Retired.**

Hobbies: Shopping, reading, auto racing, and my
children's and grandchildren's activities.

Along the Way: Hospital volunteer (Pink Lady),
voting poll volunteer.

Favorite Teacher: I can't remember.

Best Class: English—not Gilmartin—and algebra.

Worst Class: Miss Cogdell, some kind of math.

Memories: My favorite memories are the social
things we did. All the games, especially foot-
ball, bring back fun memories. The parties at the
Presbyterian church after the football games. There
are so many good memories that I can't pick just
one—slumber parties, Hayes Barton pool in the
summer, the big dances that we would get together
and have, sleighing at the Carolina Country Club
when it snowed, pool parties at Susanna Coley's
house—all these things are favorite memories.

What I Have Learned: I learned early not to say
you are not going to do something. I had to eat my
words too many times.

Guiding Philosophy: Love others for what and
who they are, not for what and who you want them
to be.

In the 60s, I... was too busy with small children
to notice. The 60s are a little fuzzy. What was the
question again?

ing, gardening and especially reading.

What I Have Learned: Life is a gift from God,
and we should live every day to its fullest.

Guiding Philosophy: When life gives you lem-
ons, you make lemonade. Keep the faith!

Bobby Harris

Robert J. Harris, Jr.
Greensboro, North Carolina

Spouse: Joyce

Children: Bobby, David, Brig, stepdaughters Lisa, and April; 14 grandchildren.

Education: B.S., NC State.

Career: Banker, three years. Then, financial analyst, college recruiter, manager of professional and technical education, manager of management development, internal quality consultant, all during 30 years at IBM. **Retired.**

Hobbies and Interests: Spending time at Emerald Isle home. Collecting toy trains, buying and selling Mustangs. Anything with grandkids. Helping my wife with her jewelry business. Reading.

Along the Way: Nothing special. I have three great sons, all happily married, with three boys and four girls. Joyce has two daughters, also happily married, with five boys and two girls. The grandchildren's ages range from 22 to five. (With us, there is no such thing as step-grandchildren.)

Favorite Teacher: Mrs. Peacock—"Orchids to you!"

Best Class: English, Mrs. Peacock

Worst Class: Chemistry, McDearmon

Favorite Activity: Hanging out in the halls in the morning, talking to friends.

Memories: Trying to beat Tommy Tarrant at table tennis, going to football games at Riddick Stadium. Walking home during Hurricane Hazel. Hanging out with my big brother (Max Brian). 3:30. Reading from my Latin "pony" and getting caught by

Mrs. Strother. Passing notes with Tucky Law in study hall. Homecoming parades. The Milky Way. Pep rallies—"Sparky." Gym, Johnny Miller's wit, checking out Ted Hoffmann's latest hot rod, shooting basket ball in the park with Van and Bryan Noah. Graduation!

What I Have Learned: There are no more Madras shirts. London Fog, Lacoste, Weejuns and all labels were and are unimportant! Mr. Holliday and Mr. Holyfield were incredible. We were fortunate.

Guiding Philosophy: Tell the truth always. You don't have to worry about remembering what you said. This becomes important at our age!

In the 60s, I... was too busy to notice; started getting gray; saw Gordon Chadwick, Roland Noblin and Warren Norman leave us.

Things I'll Remember

8th

Staying in for running to lunch—First look at the pits—"big brothers and sisters"—Trying to remember the right stairs—intramural sports—Mr. Bello's perfect H.R. attendance for 3 months—Mrs. Smith's H.R. play, "The Man Without A Country"—parties every week end.

9th

Those awful health classes—mix up during class changes—the "Blue Goose" and BALM — Hurricane Hazel—Mr. Siegel — Latin — Miss Cannon's algebra class.

10th

Collecting wild flowers and grasshoppers for Mrs. Shore—trash cans in front of 210—Coach Despres—getting driver's license—Mr. Taylor's wild current history class—change from Morson to Broughton—Miss Penny's "all or nothing" test—youngest class again.

11th

Miss Strother's study hall—pigeons and room 330—Eastern AAA basketball championship—band trip to Florida—class rings—congruent triangles.

12th

Pat Boone on New York trip—homecoming parade—our Queen of Hearts—Senior prom and beach—term papers—new assemblies—May 30—Asian flu — measles—"Rock" Butler's office—a paved parking lot—Alden Miller's traffic problems—Mrs. Peacock's group work.

I Knew I Was a Senior When . . .

Met "Mr. Gilmartin"

We took that first long walk in assembly.

A sophomore said "Really" when I told her what grade I was in.

I got to work on the *Latipac*.

I was a senior when I started walking 3 flights of stairs every morning.

I received my first English assignment under Mrs. Peacock.

When I watched our last football game of the season.

I started filling out hundred page college applications.

When I got that "I don't care anymore" feeling about school work.

When term paper time kept me up till 5 in the morning.

When a sophomore asked for my autograph.

Education: Peace College. Certified Human Resource Professional, Society of Human Resource Management.

Career: Consulting engineering firm, 1971-1980. Administrative assistant director, Human Resources, N.C. Electric Membership Corp., 1981-2002.

Retired.

Hobbies and Interests: Activities with family and friends, traveling, playing on my computer. My daughter, Jill, is relocating to Denver, so I will be visiting Colorado in the very near future.

Along the Way: I enjoyed all 21 years of my job. Since retirement, I volunteer as secretary of the Broughton Alumni Association and as call agent for the wonderful Class of 1958. I help at my church in the Clothing Closet.

Favorite Teacher: Nell Kahdy

Best Class: 8th grade math with Mr. Bello

Worst Class: Geometry with Mrs. Cogdell

Favorite Activity: Cheerleading

Fine 50's fashion modeled by Sally Hayes Stevens, Johanna Johnson Smith, and Jane Jordan Hubbard.

Memories: First through 7th grades were very secure, and we all knew everyone in our classes. Arriving at Broughton in the 8th grade was scary, enormous and exciting. I liked meeting new friends, changing classes, walking the halls, and all that was to be "high school." Loved Friday night football and basketball games, homecoming parades, pep rallies, cheering for the Caps, Hi-Y Follies, trips to the beach with friends, *The Younger Set*, NC State Fair (wearing jeans), and going to New York on the senior trip.

What I Have Learned: That many friendships I made in high school are more important today. We can't have better true and special friends than those we made at Broughton. Many of us are still together and having fun.

Guiding Philosophy: Life is good!

Teddy Charles Hoffmann
Durham, North Carolina

Spouse: Linda

Children: Tweed and Todd

Education: NC State University in Product Design

Career: Three years Army; two years product and process engineering. Forty years owner of T.Hoff Auto Parts (3 stores) and Machine Shop (2 shops). Ten years T. Hoff Manufacturing and Design.

Semiretired.

Hobbies and Interests: Cars: '32-'34 Fords; '56-'57 DeSoto and Chryslers; many VWs. RC model airplanes. "Sugar Shack," our party house and reunion place.

Along the Way: Long motor home vacations with my family. Building the house and barn I now call home.

Favorite Teachers: Mrs. Kahdy, Mrs. Peacock, Bob Barnes

Teddy Hoffmann

Best Class: Band

Worst Class: Anything else.

Favorite Activity: Music, building (anything).

Memories: Friends, band activities, 8th grade, chopping the top off my '32 Ford in school shop. (I taught our shop teacher how to weld with a torch.) Dances. I drove school bus #1C for three years during high school.

When I landed in Mrs. Peacock's English class, I knew a mistake had been made. I went to her and said, "I just don't belong in here."

"Don't worry," she said, "We'll get through it together."

I went into the Army after graduation and wrote her a thank-you letter. She sent it back with all the errors marked in red. I made all the corrections and wrote the misspelled words 10 times and sent it back. It was returned to me one last time with "Orchids to You" written on it. I will always remember her as a lovely lady and a true teacher who had faith in every student.

What I Have Learned: I should have studied in high school—at least some!

Editor's Note: Ted hosts a mini-reunion for the Class of 1958 each year on the third Saturday in September at his home and party complex.

Spouse: Nithi (Nick)

Children: Maitri ("Mike")

Education: B.S., Wake Forest, 1962; M.A. in biology, ASU, 1967.

Career: Medical technologist, Baptist Medical Center, 1961-66. College instructor, Wilkes Community College 1966-1997.

Semiretired.

Hobbies and Interests: Now that I'm retired or semi-retired, I like to garden and read and do activities that I never had a chance to do while teaching.

Along the Way: Master Teacher, University of Texas at Austin (award given for outstanding teachers

in the community college systems nationwide). Excellence in Teaching Award (NC) runner up in 1986.

Favorite Teacher: Miss Penney (English)

Best Class: Her class! Although I didn't think so at time!

Memories: Miss Penney has been an influence in my life since I was in her English in my junior year. I still use much of the grammar she "forced" us to learn. Because of her I am quite aware if the many grammatical errors committed in today's society.

What I Have Learned: I can't begin to answer this question. The majority of life is a learning experience, not just the classroom activity. Perhaps one thing is that I didn't realize "how sweet it was" while I was in high school and college!

Skellie Hunt

Walter Skellie Hunt III
Wilmington, North Carolina

Spouse: Sally Kesler (dec.)

Children: Walter Skellie III, Leigh Esther, Lindsay Sylvester

Education: BS, NC State

Career: No military, because I was married with two children. You might say Sally saved my life, because Vietnam would have claimed me for sure. More than 30 years in the building development industry. Then, my claim to fame. I was project manager for International Chimney, when they moved the Cape Hatteras lighthouse. Just moved a lighthouse in Nantucket, MA, and am now involved in refurbishing it. Now, with Sally gone, I may just work forever.

Hobbies and Interests: Tennis, but two shoulder surgeries stopped that. Worst golfer ever. Bought a Jon boat for the grandchildren. Trying to stop liberal onslaught of socialist doctrine in our country.

Along the Way: Reflecting, I now see that family has been our focus from the beginning of these 50 years! Making a buck always had to be in the forefront. Transferring our miniscule mustard seed faith in God to our kids grew from really nothing to the highest priority.

Favorite Teacher: Mrs. Peacock

Best Class: Typing, 'cause that's where Sally was.

Worst Class: Mrs. Mix, Spanish

Favorite Activity: Walking the halls with Sally when she got me out of class.

Memories: The girls. I had been in a boys school for five years and thought I had died and gone to heaven with all those bosoms.

Spouse: Jane Jordan Hubbard

Children: Will, Alice, Sally; stepchildren: Lindley, Trex, Ashley.

Education: University of North Carolina, A.B., English; M.D. Four years pediatric residency, UNC and University of Virginia.

Career: 1969-1971, Captain, U.S. Air Force, Edwards Air Force Base, CA. 1971-1972, Instructor, Department of Pediatrics, UNC-Chapel Hill. 1972-2001, Raleigh Pediatric Associates. 2001-2006, Professor of Pediatrics, UNC School of Medicine. **Retired.**

Hobbies and Interests: Family, golf, boating, fishing, writing poetry.

Along the Way: My overriding passion is Jane and our family. I have been active continuously in the mission of three organizations:

- 1) The Raleigh YMCA and Camp Sea Gull, where I was inducted into the Hall of Fame.
- 2) The NC chapter of the American Academy of Pediatrics, that I served as president and was awarded an honorary membership.
- 3) Teaching in the UNC Department of Pediatrics, from which I retired as Professor Emeritus in 2006.

Favorite Teacher: Mr. Blakeway

Best Class: English

Worst Class: Latin

Favorite Activity: Basketball and baseball.

Memories: When I think back to 1954-58, my memories blend into a single recollection of fun, school spirit, first love, security, challenge and growth that provided a positive springboard of preparation for adulthood.

For me, high school years were happy times shared with others who are now uniquely special friends for life.

What I Have Learned: Though there are fulfilling opportunities and lasting friendships to be had beyond Broughton, I find as I grow older that I love those most whom I loved first.

Guiding Philosophy: Every person can teach you something.

William (Bill) Stuart Hurt
Spring House, Pennsylvania

Spouse: Susan

Children: Jennifer, Ging, Rachel: two grandchildren.

Education: B.S., chemistry, University of North Carolina, 1962; Ph.D., organic chemistry, University of Chicago, 1967.

Career: Insecticide synthesis chemist, 1967-1974, 12 patents.; insecticide development manager, 1974-1982; fungicide development manager, 1982-1986; global fungicide manager, 1986-1999, Rohm and Haas, Philadelphia. **Retired.**

Hobbies and Interests: Eight-year fulltime cruising (22,000 miles) east coast of U.S. and Bahamas with Susan in our 34-foot Catalina sailboat. Reading, international travel, taking college courses by CD that I wouldn't take as a science major—religion, philosophy, history, economics, literature. Landscaping, carpentry, enjoying the beach in North Carolina.

Along the Way: Work allowed me to travel to all major apple and grape growing areas on five continents and go around the world five times. Three daughters graduated college: Jennifer, Cornell, material science engineering, M.S., North Dakota,

space policy; Ging, BS, Delaware, environmental science engineering; Rachel, Virginia Tech, wildlife biology.

Crossing the Gulf Stream from Miami to Nassau for the first time in "Osprey." Managing multi-functional team to register two new fungicides worldwide, being able to manage both fungicides as commercial products worldwide (R/D, manufacturing, marketing, strategic planning, etc., basically as stand-alone businesses). Hosting (with Susan) second marriage.

Favorite Teacher: Miss McDearman

Best Class: Chemistry

Worst Class: Whatever Ms. Crater taught.

Favorite Activity: Hanging out in Mr. Holyfield's office during homeroom.

Memories: Riding around on weekend nights in Jimmy Yates' old convertible with a whole gang of guys—Frank Cella, Steve White, Bub Pearson. Figuring out things I could do legally to skip classes, especially senior year. Going to the State Fair and trying to win teddy bears. A bittersweet memory—being chairman of the Senior Prom, but my steady got measles two days before the dance, so I ended up alone. Going to the beach after graduation, being inducted into the Service Club, heading the Senior Activities Committee; we sold everything from football programs to graduation invitations. Going to see Fats Domino, Little Richard, and Chuck Berry at the Raleigh Memorial Auditorium. Any time I spent with a certain underclassman (Marie O).

What I Have Learned: Still learning. Every day is a new adventure when we pull anchor and start for a new destination.

Guiding Philosophy: As long as there are new challenges, new places to see, life is exciting.

Patti Ireland

Patricia B. Ireland
Stone Mountain, Georgia

Education: A.B., Duke University, 1962; M.A.T., Emory, 1972.

Career: Educator: Chemistry, Ferguson High School, Newport News, VA, 1962-1964; Towers High School, Decatur, GA, 1964-2000.

Retired.

Hobbies and Interests: Choral music, travel, The Meeting Queen, slot machines.

Along the Way: "Thoughts on a Great Life!"

I always knew I would be a teacher. From the time I could spell "school" I said I was going to be a teacher. At Broughton I loved being a member of the Future Teachers of America. So, off to Duke I went to find the subject I wanted to teach. I chose to major in chemistry thinking that it would be a subject that would be interesting and diverse. What I found out after becoming a chemistry teacher was that I really loved to teach "kids." That's what I did for 38 years, 36 years in the same school. It was the most incredibly wonderful career.

I did find that my real interest was not science (even though I continued to teach chemistry as my day job), but leadership development. So I became a consultant and workshop director focusing on helping young people maximize their potential and become leaders for "good." While doing that I directed a Leadership Training Center at Myrtle Beach, SC, for 10 years, providing leadership training experiences for high school students from all over the country, working under the auspices of the National Association of Secondary School Principals. I still today, nearly 20 after that site closed, hear from many adults who got their start with me at the camp. I also became the Executive Director of the Southern Association of Student Councils, a

15-state regional organization that provides leadership experiences for high school and middle school students. I am still in that position after more than 30 years on the job.

Along the way I have been privileged to receive a number of recognitions for my contributions to students including STAR Teacher, DeKalb County Teacher of the Year, Frances Bounds Leadership Award in North Carolina, Earl Reum Workshop Director of the Year, Regional Warren Shull Advisor of the Year from the National Association of Student Councils, and many more. Frances Bounds was an early mentor of mine from Kannapolis who helped me become the educator I had always hoped to be.

The second biggest part of my life has been singing for more than 40 years with the Decatur Civic Chorus, a community chorus that provides concerts free for the community and raises funds for worthy causes. Through the DCC I have been on at least six international tours in more foreign countries than I can count, and an incredible number of singing experiences including Carnegie Hall and Kennedy Center. I have served as DCC President several times and coordinated several of its concert tours. This group is like a family to me and has been significant in my development as a musician and a community servant.

Now that I am retired from teaching, I am working as president of my local unit of the Georgia Retired Educators Association and as Clerk of Session for my church, Oakhurst Presbyterian Church. I guess I really have become the "meeting queen" as so many of my friends call me.

I can't wait to get together with NBHS friends and reconnect with the happy memories of 1955-58.

Favorite Teacher: Miss McDearman

Best Class: Chemistry

Worst Class: Physics

Favorite Activity: Y-teens

Memories: Making good friends, football trips, clubs, working on the Queen of Hearts Assembly, helping Jim Byrd pass physics, the beach trip after prom. Best friends—JoAnn Clayton (Leist), Carol Colvard (Cason), Janice Peterson (Dulin), Marilyn Maki (Kim), and so many others. The party my folks hosted after Baccalaureate. Bleaching my hair on a beach trip with a church group.

In the 60s, I... was becoming a good educator. The 60s are a little fuzzy. What was the question again?

Education: A.B., M.A.

Career: Biologist (research), biological illustrator, farm business manager, "go-fer" for my husband, mother (the hardest job). We have two family farms (have cats and dogs at home). **Still working.**

Hobbies and Interests: Still working (as farm manager)—it takes most of my time. I enjoy: Helping my daughter Eleanor Anne at equine competitions, babysitting grandchildren, going to writers' conventions, doll conventions, and sci-fi conventions with my daughter Angela (who writes), visiting kids and grandkids in New York City and North Carolina. I'm involved with my church. I'm also very interested in animals, their care and safety.

Along the way: The result of our work has always been more work. We like it that way. I keep everything (home and business) going, so that my husband can do his mission in life. He is a very dedicated orthopaedic and trauma surgeon who works at several hospitals. We feel that our "team"

Spouse: Dot (Dorothy Fitts)

Children: Kim, Chris, Leah

Education: BSEE from North Carolina State, MS in Physics from Lynchburg College, GE Advanced Engineering Program.

Career: Engineer, GE. Vice President at Communications Transistor Corp. Founder and CEO of Spectrian, Inc. Founder and CEO of Xemod, Inc. Vice President/CTO of Sirenza Microdevices, Inc. Currently Vice President at RF Microdevices, Inc.

Hobbies and Interests: downhill skiing, soccer, collecting red wine, fast cars.

Along the Way: After graduating from NC State, I went to work at GE in Lynchburg, VA as an electrical engineer. I married my high school sweetheart, a 1960 Broughton graduate. GE and Lynchburg were a bit too slow for us, so we moved

to California to join a new startup firm in 1970. Three young children, dog, cat, 11 pieces of luggage, we were off for a California high tech adventure. Three high tech startup companies later, one of which went public, and the other two sold, my adventures continued. Now, of all the strange coincidences, after selling the last company that I started to a firm that was recently purchased, I find myself working for an NC-based company. My business has taken me around the world many times, but several vacations stand out in my mind. Dot and I went down the Colorado River through the Grand Canyon on a week-long rafting trip. As part of a Baltic cruise, we spent three days in St. Petersburg, Russian. We have also enjoyed trips to Europe.

Favorite Teacher: Mr. Blakeway

Favorite Activity: Getting out of school every afternoon.

Memories: Going to Miami with the band. Winning first place in the state's Industrial Art Fair. Taking Dot to the Senior Prom and several incidents I will not discuss... But outside of school, I remember the many beach trips, hanging out at L&M Drive-In with my friends, the Broughton football games, and the State Fair, (Can you believe we got out of school to go?)

What I Have Learned: Education is critical in life. Taking risks in live brings rewards. Having a loving and supporting wife is critically important in succeeding in the business world. Having children with my loving wife has made my life complete.

Guiding Philosophy: Always look at the positive side of everything. don't stress over what you cannot control. Living on the edge is fun.

Spouse: Joseph Raymond (Joe)

Children: Monte

Education: Hardbarger Business Night School

Career: Great American Insurance in Raleigh, Yellow Pages in Washington, DC. Moved to Cayce in 1965 and worked several places. Retired after 18 years with the Richland County Sheriff's Department in 2002.

Hobbies and Interests: Going to movies, taking trips, going dancing—we square danced for 15 years.

Along the Way: We have been to New Orleans three times: 1) First honeymoon; 2) Five year-old son was in a wedding; 3) To see our son graduate from New Orleans Baptist Seminary with two Masters degrees. Some of my memorable trips are to Disney World at Christmas 1991—there were pooinsettias everywhere. Others are to Cape Kennedy,

A jug of wine, slumber party and Pat Goodwin.

Canada, Cape Cod and to Branson, where we hope to go again. We got to see the Grand Ole Opry Museum and the Barbara Mandrell Museum in Nashville in 1983, and stayed at the Opryland Hotel, a treat in itself. I had lived in North Carolina all my life, but didn't make it to *The Lost Colony* until 1985. When I was 19, I enjoyed a two-week stay in Puerto Rico. When I was 21 and my sister was 14, my parents had a baby boy. We were thrilled beyond words. We felt different when we reached our 40th birthdays. I finally let my nails grow out in my late 20s; I never thought I would. I took piano lessons in the late 50s and learned many notes, but didn't like to practice.

Philip Blalock Johnson
Montgomery, Alabama

Spouse: Merle Luckie Johnson

Children: Debbie Murchison; three grandchildren.

Education: Trentholm Technical School; University of Alabama (two years).

Career: Twenty-one years in the Air Force; retired. Housing Codes, assistant director, City of Montgomery, AL, retired.

Hobbies and Interests: Little League with three grandsons. Senior Softball, Pompano Beach Bums, from Pompano Beach, FL; we play in about eight tourneys each year.

Along the Way: After graduation from Broughton in 1958, I signed a professional baseball contact with the Baltimore Orioles, and I played one year at Bluefield, WV. I enlisted in the Air Force late in 1958. Fast pitch softball became my high priority, and I played 16 years on Air Force teams. Good fortune prevailed as I played second base on U.S. Air Force All-Star teams which won five consecutive Armed Forces Fast Pitch championships, 1971 through 1975.

Another highlight of my career is induction into the Blue-Gray Softball Hall of Fame in 1982. (It is the oldest fast pitch softball association in the U.S.)

I joined the senior softball circuit in 1997 with a team from Pompano Beach, FL, called the Pompano Beach Bums. Memorable tournament sites on the schedule include Cape Cod, MA; Orlando, FL; Palm Springs, CA; Las Vegas, NV; St. George, UT; Des Moines, IA; Seattle, WA; and Pittsburgh, PA.

My greatest joy is playing Little League Baseball with my grandkids. It brings back fond memories of Little League days in Raleigh, 60 years ago. It's great to fell young again while growing old.

Kat Jones

Betty Jean "Kat" Jones Spence
Raleigh, North Carolina

Spouse: Ernest P. "Duck" Spence

Children: Sandra Jean Spence Narrow responds to "Sandy"; Phillip Douglas Spence "Phil"; Leigh Anne Spence Cooke; six grandchildren.

Education: Saint Mary's Jr. College

Career: I worked with Dr. Peter Whitt, research psychiatrist at a research building at Dix Hospital. Dr. Whitt was researching drug induced spiders... this research was very interesting; to say the least, and I loved working with Dr. Whitt. I transferred to the Department of Corrections and worked with prison officials in transferring inmates to court. I was promoted to handle the extradition of inmates to other states.

I was later promoted to the DOC Legal Section. This section was transferred to the Department of Justice, the NC attorney general's office. I earned my paralegal diploma by going to night school at Saint Mary's College, and retired from state government as a Paralegal II.

Hobbies and interests: Redecorating my house—my husband told me to say that—however, it is true.

Along the Way: My three sisters and I went on a Cruise during Hurricane Fran. We all stayed in one state room in bunk beds. The reason was that one of my sisters needed help getting around. Well, we had a blast to say the least. Fran hit while we were out to sea. My sister close to me in age and I went on deck to check out the storm, and it was wild. We docked the following morning in Miami; called home, cried a lot, and then we all went shopping. When we got home, Raleigh was in a mess.

When our children began growing up, Sandy, the oldest, got involved in piano and dance. Phil, our middle child was involved in baseball, soccer, and music. We traveled with him and his select soccer teams to various cities and towns in NC, Tennessee, and Virginia. Phil is quite a singer, and for a while had his own band. Leigh Anne, my baby, was active in swimming, dance, and soccer. She was the mascot of the Wilders Grove cheerleaders at the age of three. She was so cute. We were all involved in Scouts. I was a Cub Scout den mother with 10 boys meeting in our basement every week. Leigh

Anne remembers sitting on the top step of the stairs listening and waiting. I was busy in the school PTA, serving as Carnival Chairperson one year. I also modeled in a local fashion show. During this time I was also on two bowling league teams, the Monday Morning Mamas, and the Bombers. I have trophies to prove it. I also had time to go to the Grecian Health Spa. I won a bike for doing the most sit-ups. I was having too much fun.

During all these years of working, my mom was very sick and getting older. I was the one she called when she needed something. I loved my mom. She became like my other child. My mom loved my friends, and they tell me that they loved her too. I really appreciate that. Mom was 92 when she died on Christmas morning in 1994. My mom had a hard life. She bore 13 babies. Five boys died before I was born. I was the eleventh of 13. I found out on my fiftieth birthday that I actually had two birth certificates, one for Lucy Katherine, and one for Betty Jean. My older brother told me that he completed one of the forms to name me after his girl friend Betty Jean, although he and practically everyone else have always called me "Kat."

"Duck" and I attend Mount Vernon Baptist Church in Raleigh, and both of us are still active. Since our daughter-in-law has had breast cancer, one of my passions is to support cancer research. We also support Feed The Children, and The Salvation Army, as well as mission programs in our church. We believe in giving back.

Memories: I loved Broughton High School and all of the friends I had there. It was a wonderful time in my life. However, when I think of my favorite teacher, the person who comes to my mind is my seventh grade teacher at Barbee Elementary School, Mrs. Pierson. She was Bill Pierson's mother. Later, Dr. Bill Pierson became my doctor.

Guiding Philosophy: To love my God with all my heart. My husband is the love of my life; together we raised three children who are responsible and doing well. Our six grandchildren are wonderful; they are always in my heart. I want to always set a good example for them.

In the 60s, I... was too busy with small children to notice.

Jane Jordan

Jane Lindley Jordan Hubbard
Chapel Hill, North Carolina

Spouse: Bill Hubbard

Children: Lindley, Trex, Ashley; stepchildren Will, Alice Sally; nine grandchildren

Education: St. Marys Junior College, UNC-Chapel Hill

Career: Taught dance aerobics with Sally Hayes in Underground Cameron Village. Teamed with Sandra Kautz and Mildred McNair ('57) decorating homes for builders, including Grady Ferrell and Freddy Johnson. Worked in a law firm with Harold Tharrington ('56). If it weren't for Broughtonites, I might never have had a job.

Hobbies and Interests: Enjoying life with family and friends.

Along the Way: Thanks to the alphabet, "Jordan" was next to "Hubbard" in our homerooms of 1953-54. Bill and I had a sightline to each other from the water fountain. We are together 55 years later.

Theme for Hi-Y Follies

Welcome To Dog Patch

On Friday evening, March 29, the Senior Hi-Y presented their 1957 Hi-Y Follies. The script was an original written by the boys and based on Al Capps' "Lil' Abner." Jimmy Burchette as Lil' Abner, kum, Jack Wilson as Lil' Abner, Dick Mason as Pappy Yokum, were three of the hilarious cast. Buzzy Russell and Morris Bernstein were the ever popular "end men." Assisted by Mary Clyde Wade at the piano, the Hi-Y kickline presented two wonderful dances. After about a month of long, hard practice they really deserve recognition. Those dancing were, Ann Campbell, Willa Kay Wilder, Carlton Savage, Betsy

Dupree, Judy Bledsoe, Liz Moore, Nancy Swicegood, Sharon Cates, "Boopie" Poole, Connie Pinyoun, Patty Cooper, Betsy Stevens, Carolyn Wagoner, Sandra Strickland, Jimmy Burchette, Carlton Savage, Liz Hayes, and Marilee Martin.

Entertainment during the second act consisted of "Lonesome Polecat" sung by Mary Lib Manning, Susan Collins, Ginny Simms, and Susanna Coley. The Escorts sang "Come Go With Me," "Lovey Dovey," and "Follow Me." Margaret Walker, Sara Lee Wilson, and Joanne Clayton, assisted by Allan Langston on the drums sang "Marianne" and "Young Love." The

Holiday Dreamers also rendered music.

The entire cast consisted of the following: Lily, Jimmy Graham, Daisy Mae, Bill Wilson, Visitor, Jim York, Lonesome Polecat, John Lingo, Hairless Joe, Henry Hester, Nightmare Alice, Roderick Richardson, Weakeyes Yokum, Lee Rainey, Earthquake McGoom, Tommy Bradshaw, Flea Brain, Bruce Hoadley, Senator Jack S. Phoghouse, Tom Wingfield, Soft Hearted John H. E. Holland, Minnie Mustache, Speck Underwood, General Bullmoose, Bill Shin, and Marryin' Sam, George Hines.

These Broughton Ladies composed the Kickline.

Emma Lemons

Emma Grace Lemons Brown
Potomac, Maryland

Spouse: Richard

Children: Stephanie; one grandchild.

Education: University of Maryland, University of Virginia.

Career: Secretary, analyst, information management officer, system requirements analyst, systems development, and ended my career at CIA as a Senior Manager; Project Manager for BNF Technologies, assigned to Treasury Dept. and Energy Dept.; Independent Consultant at CIA; currently Information Management Consultant for SAIC (Science Applications International Corporation).
Semiretired.

Hobbies and Interests: Travel, interior decorat-

ing, gardening, movies, dining out with friends, and especially spending time with my two year-old grandson.

Along the Way: Have been married to the same man for 46 years—honors for that. Careerwise, it seems I have worked all of my adult life. I received many recognitions and performance awards during my career at CIA; served on the Board of Directors of a professional organization, Association of Records Managers and Administrators (ARMA), for 15 years, where I received several awards; worked at the White House in 2007 for five months, where I received an engraved White House medal; traveled all over the USA and the world, with the exception of the Far East—one of my favorites was visiting all the countries along the Baltic Sea, ending up at St. Petersburg, Russia.

Favorite Teacher: Mary Penney

Best Class: Civics with Mr. Siegel (SO cute)

Worst Class: Phys Ed.

Favorite Activity: Basketball games.

Memories: Beach trips, parties, spending time with friends, all that dancing, being a part of the “Cliques” club. Memories of Miss Penny, her punctuation rules, and the way she slapped each student’s desk with her ruler to recite “P1, P2, etc.” Those rules I never forgot.

What I Have Learned: I’ve learned that Broughton gave me a strong foundation to excel in my adult life; I’ve learned that time flies by so quickly; I’ve learned that family and friends are more important than work.

Guiding Philosophy: Live life to the fullest, dance till I drop, be kind to others, and never forget my roots.

In the 60s, I...became more aware.

Children: Sherrill, John, Annie; three grandchildren.

Education: East Carolina University

Career: NC Department of Revenue. Rex Hospital. Antiques.

Hobbies and Interests: Painting with watercolors. Enjoy traveling. For 13 years I have helped with a medical mission to Ecuador. I spend as much time as possible with my grandchildren.

Along the Way: I have helped with a medical mission to Ecuador that has changed my life. Those are the photos to the right.

Ecuador is a third world country with great poverty. The people have very little hope outside of Jesus. Our mission is to help the people physically as well as spiritually. We have built many churches and a medical clinic, which we supply. The people are wonderful, and have seen God change many lives. The country is changing some now, and many doors have opened that were once closed. Hopefully this will continue.

Memories: We had a wonderful class. The people were unusually all-American. I never thought I would forget anyone—but, alas, I have!

Guiding Philosophy: Ultimately God is in charge, and all the things we could worry about are in his hands.

In the 60s, I... was too busy with small children to notice, and the 60s are a little fuzzy. What was the question again?

SENIOR ATHLETES RECALL THEIR GREATEST THRILL

A questionnaire was handed to those seniors who have been participants on one of Broughton's varsity athletic teams as to what was their greatest thrill.

Here are the replies:

Roland Noblin — Beating Wilmington in football.

Gene Petrasy — When I won Southern Swimming Championship.

N. R. Stell—Making the basketball team.

Roy Stephenson—Beating Wilmington this year.

Merle Summers—Getting a varsity letter in the ninth grade as one of the five baseball managers.

Emory Underwood — Actually finishing the 880.

Allen Upchurch—Being elected one of the co-captains of the swimming team.

Cap of the Month

By TOMMY BUTLER

It's been a thrilling season and one of the best that Raleigh High has enjoyed in many years. Certainly all of the boys connected with the team are deserving of recognition. One in particular has been an outstanding performer all year. He is Reggie Brown, who this year as co-captain of the Caps, earned his third letter as a varsity football player. Throwing vicious downfield block, opening large holes in the center of the line, making vital tackles and intercepting passes has been Reggie's policy for the entire season. His steady performance has caught the eye of many college scouts. Reggie proved his desire to help the team when he switched position during the middle of the season. His spirited play and hustle make him a top college prospect.

In the spring, he attracts attention on the track field where he is a star as a sprint man.

For these reasons Broughton wishes to recognize Reggie Brown as its Cap of the Month. Congratulations, Reggie.

Cap of the Month

By TOMMY BUTLER

Roy Stephenson

Raleigh High has a well balanced team this year; therefore it is very difficult to pick only one outstanding player as a result of the first three games. However, a spectator of all of Raleigh's games surely has noticed a number 34 consistently getting up from the bottom of a pile or making a vital down-field block. This No. 34 is Roy Stephenson or "Roy boy" as he is known by his teammates and friends. Whenever all important yardage is needed to gain a first down or a touchdown it is usually pile-driving Roy who carries the ball. Roy from his full-back position has scored a touchdown in every game up to date.

In the spring Roy devotes his talents to track where he is a star as a field and sprint man.

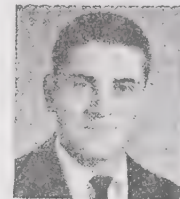

It is because of Roy's outstanding ability that he has been chosen "Cap of the Month." Congratulations Roy, keep it up.

Cap of the Month

By TOMMY BUTLER

The Hi-TIMES recognizes the fact that Broughton has two fine teams. Therefore we have two Caps of the Month.

For basketball the choice was most difficult due to the fine quality of the whole team. The Caps have no super stars, but each player on the team is capable of spectacular evenings. From this outfit however has emerged Bill Hubbard. Bill doesn't attract too much attention on the court. He is not particularly tall (6 ft.-2 in.) or exceptionally fast. He is, however, gifted with coil springs for legs and has the bulk to get position on the boards. A fine one hand jump shot. Bill leads the team in scoring and is second in rebounding. Bill's unheralded, but exceptional play has made an indispensable part of the Cap cagers.

David Gullette is a man of many talents. The Erstwhile Council president when he doffs his street clothes and slips into swimming trunks is transformed from his easy going actions to graceful stroked. Dave has been attracting rave notices since he won the state championship in the backstroke as a sophomore. This year Dave is considered the states best butterfly man and among the best of the individual medley men. This is proof of Dave's versatility. We congratulate Dave Gullette. He has made a big name in a minor sport.

TRACK

The Raleigh High School track team is expecting a very fine season and possibly a State Championship. The team has many returning lettermen and some very capable newcomers. They have had only one meet so far this season, a triangle one with Burlington and Greensboro. Raleigh walked away with a well earned victory. The boys who should play major roles this year are: Jack Wilson, Bill Wilson, Scott Bowers, and Eddie Suggs in the 100 and 220 yard dashes; Bobby Foxworth, Allen Langston, Sandy Matthews in the mile run; Bruce Weaver, Bill Hurt, Louis Alexander, Bob Martin in the 880 yard run, Bob Williams in the broad jump, pole vault, and the low hurdles; Jimmie Graham, Gordon Chadwick, Warren Norman in the low and high hurdles; Reggie Brown, Curtis Hughes, Bud Tripp, Reggie Farmer in the high jump; George Beaker, Johnny Wardlaw, Ivan Jones in the 440 yard dash; and Roy Stephenson, Henry Newton, Mickie Caviness, Red Martin, Bub Person in the shot put. The managers are David Robinson and Tommy Worth. Other members of the team are: Bill Dickason, Simon Dixon, Howard Garriss, Alvah Fuqua, Hubert Westbrook, Emory Underwood, Horace Rene, and John Miller.

BASEBALL

Every afternoon since the middle of last February many of you have seen our baseball team hard at work on the school athletic field practicing for the coming season. These boys, along with Coach Fesperman, work out from about four until five-thirty each afternoon and are "really giving it all they've got." From the looks of things the prospects for the coming season are good, with Jerry Cordell at first, Phil Johnson on second, Gordon Welsh and Bobby Edgerton at short, Ferg Norton at third, and Spec Underwood, Doc Dickinson, Johnny Wood, and Billy Jordan behind the plate. Some of the outfielders are Bryant Garner, Roland Noblin, and Johnny Daniel. The team also has a lot of fine pitchers. Some of them are Hugh Deans, Ronnie Jefferies, Billy Hubbard, Allen Miller, George Hines, and N. R. Stell.

CAP of the MONTH

By LEWIS MARCUS

This issue of the Hi-TIMES is traditionally the issue which summarizes the school year. The Cap of the month for this month has participated continuously in three sports. As starting end on the football team, Allen Millar turned in game after game of good if not outstanding football. Then he donned basketball duds for the Caps and was the starting center. Not a terrific scorer, his forte is rebounding, a department in which he finished second only to Roman Gabriel in the East. After the tournament at Greensboro, Al packed up his basketball gear and drew his baseball uniform. Starting in right field, strong-armed Al started slowly. As the season progressed, his average shot up. He is now batting over .500 besides leading the team in homers. Congratulations to Allen Millar, the only senior three-sport athlete.

Excerpted from an editorial in the The Pilot (Southern Pines), published Dec. 1, 2005.

Burley Mitchell's Surprising Question

In Carthage, Sheriff Lane Carter recently urged that the county acquire a piece of surplus state property for expansion of Moore County's overcrowded jail. In Raleigh on that same day, Burley Mitchell, former chief justice of the N.C. Supreme Court, tossed out a rather more dramatic and controversial idea. Pointing out that we wouldn't need new jails or prisons if we would stop filling so many cells with people who need treatment, not punishment, for their drug addictions, he asked an eye-opening question: "What if we decriminalized drugs?"

Mitchell spoke at a panel discussion called "Getting Smart on Crime: Facing North Carolina's Prison Crisis." Another panelist, Marc Mauer of the Sentencing Project, noted that prison populations have been soaring since the 1970s. He pointed out that more than half the federal prisoners at any given time are there for drug offenses and that the United States recently surpassed Russia as the world leader in the numbers of people it locks up.

Losing the War?

"God, what could we do with the money we spend on sending people to jail?" Mitchell asked. Calling the "war on drugs" in North Carolina and across the nation "a total failure," Mitchell said that legalizing drugs would slash the amount of tax money spent on police and courts and would spare counties like Moore the huge expense of building ever-bigger jails to house those who commit essentially victimless drug-use crimes.

Decriminalization, Mitchell said, would free vast amounts of money to apply to more constructive programs to help people kick their addictions — and on a global front, eliminating drug profits would also knock the props out from under the international narcotics cartels.

Mitchell wasn't making a concrete proposal. He was posing a hypothetical question in keeping with the freewheeling spirit of the forum's sponsor, N.C. Policy Watch, an organization that seeks to change the way government officials look at basic policy issues. But the former chief justice deserves points for his boldness, if nothing else, for asking how long we can keep going down this same road. Though few of us are quite ready to endorse a total repeal of our prohibitions on illegal substances, Mitchell is not alone in wondering at what point our drug "cures" become worse than the disease.

Dahlgren Chair, Computer Science, Virginia Tech (1988 – 2004). Visiting Distinguished Honors Professor, Department of Industrial Engineering and Engineering Management, University of Central Florida (1997). Academic Fellow, School of Systems & Enterprises, Stevens Institute of Technology (2004 -). **Retired.**

Hobbies and Interests: Old (1940s – 1960s) automobiles: restoration, driving and showing. Owner of REMEMBER WHEN of Newport, Newport, VA.

Along the Way: "Work hard, play harder" has been a guiding principle. God has blessed me with loving family and wonderful friends. Most notable awards: Named a Fellow of the Association for Computing Machinery (1996); Named by the faculty of the Edward P. Fitts De-

partment of Industrial and Systems Engineering, N. C. State, as one of 12 distinguished alumni during the first 75 years (2006); received the Lifetime Professional Achievement Award from the Institute for Operations Research and Management Sciences (INFORMS) Simulation Society (2007).

Best Teacher: Too many excellent teachers to select only one. Miss McDearman, Miss Peacock, and Miss Penny were instructionally and inspirationally outstanding.

Best Class: Junior and senior English, civics, and chemistry.

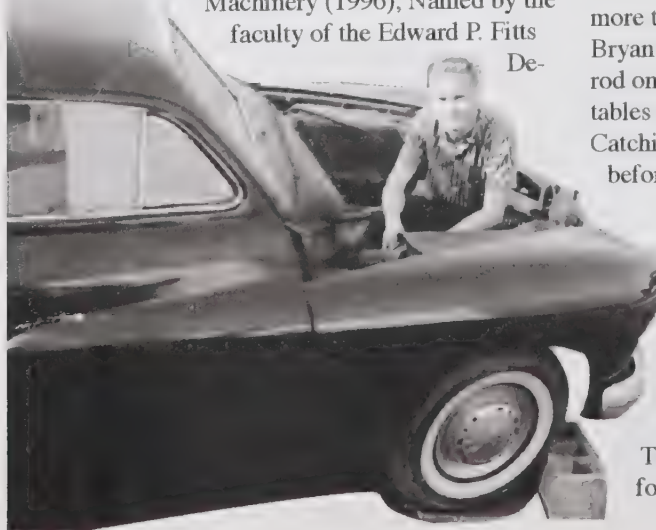

Worst Class: Woodworking in shop.

Favorite Activity: Cruising Johnny's, the L&M, and Swain's on Western Boulevard.

Memories: Sock Hops after away football games during freshman and sophomore years as a band member. The "kneekers" on the band bus. Dances in the Gym (until senior year went stag — too afraid of rejection to ask for a date). Saturday night Sock Hops at the Western Boulevard Community Center. C. J. Underwood and Johnny Miller trying to line up the cue ball draped over a pool table at the Collegiate Club. Dragging Main in Johnny Grogan's pink and white '56 Buick or on the rare occasion when my brother loaned me his '55 Olds ragtop. BS-ing with Jerry Patrick, Bill Bradley and Bryan Noah during lunch break before English with Mrs. Price. Working on my '49 Mercury, which I did more than drive it. Outdoor basketball games with Bryan and Van Noah and Bobby Harris. The glass rod ominously protruding from the ceiling over the tables in Miss McDearman's chemistry lab area. Catching up on Cary gossip with Becky Fuquay before Miss Penny's class.

What I have learned since Broughton: You learn more with your ears open and your mouth closed.

Guiding Philosophy: Summarized by a rough quotation from Emerson (I think). "If your castles are in the air, leave them there. That is where they should be. Now build the foundations under them."

Spouse: Freddy Johnson

Children: Keith, Ashley, Kent; six grandchildren.

Education: BA, Meredith College

Career: Draftswoman for the NC Highway Department. Making "creations" for my own craft business. Decorator. Missionary to Haiti (photo above). Founded nonprofit urban ministry, Building Together Ministries.

Hobbies and Interests: Overcoming bilateral knee replacement and hoping to hike with Freddy again. Creating pottery through hand-building, with three shows a year. Will attend Penland this summer to learn more.

Along the Way: Life with Freddy "has been a good ride!" Who would have guessed the fulfillment I searched for for 48 years would come in relocation to Haiti for five months, inner-city Atlanta for one year, and starting building Together Ministries in downtown Raleigh. Freddy and I say we were sort of a bridge linking resourced persons to unresourced persons. One of our staff members was chosen by ABC for *Exteme Home Makeover*. The details are on Freddy's page.

We were interviewed by William Friday on PBS's *North Carolina People*. Nancy Susan Reynolds Award.

Favorite Teacher: Mrs. Erlich

Best Class: Miss Penney

Worst Class: Chemistry

Favorite Activity: Decorating for dances, attending dances,

Memories: Walking to Broughton from our home on Oberlin Road. Sleepovers at Vicky Martin's,

parties at Susanna Coley's, shagging to latest 45s. My father's arms filled with red roses following the '58 Queen of Hearts assembly. Closeness of friends and gift of friendships. Time together with Freddy—he would walk and hitch rides from Longview Gardens to Oberlin Road—that grew to love that has lasted 54 years.

What I Have Learned: "Greatest comfort comes from being uncomfortable" (as I journeyed out of my comfort zone.)

Guiding Philosophy: "Each morning we must hold out the

chalice of our being to receive...to carry... and give back." —Dag Hammarskjöld.

In the 60s, I ... was too busy to notice. We had three children in 26 months.

Brenda Payne

Brenda Leah Payne Millar
Raleigh, North Carolina

Spouse: Allen Millar

Children: Greg, Leah, and Andrea

Education: BA, history and education, Meredith College, 1962. Also studied at NC State and the University of Nice.

Career: Taught 6th grade in Fairfax County, VA. Taught 4th/5th grade at an American dependent school in Ansbach, Germany. Taught 4th grade at Wiley Elementary School for 18 years. Magnet school coordinator. **Retired.**

Hobbies and Interests: Love to travel, read, work out, play bridge, write my memoirs. Volunteer at church and in the schools. Spend time with children and grandchildren and friends. Snow ski and go to the Sundance Film Festival.

Still skiing at 68

Along the Way: Living in Ansbach, Germany for two years and near Nice, France, for two years has been a great highlight to add to my perspective of the world and my appreciation for all kinds of people. A big honor for me was being Teacher of the Year twice at Wiley International School, and being a Wake County semifinalist for Teacher of the year in 2000.

Favorite Teacher: Mary Penney

Best Classes: Speech, drama, English, geometry and chemistry.

Worst Class: College algebra

Favorite Activity: Going to dances and sporting events.

Memories: Walking the halls of Broughton and feeling the friendliness of students and faculty first comes to mind! The assemblies in which the se-

niors marched in to music. The feeling of excitement at inductions to the special clubs. Pep rallies, homecoming parades, Hi-Y Follies. Decorating for dances and then attending, hanging out after lunch either in the auditorium or on the front lawn. Going to many sporting events...the list goes on and on. But here is where I met my boyfriend, Allen Millar, to whom I've now been married for 45 years!! That memory is the most special.

What I Have Learned: I've learned patience and to meet people where they are with their stance and to walk together from there.

Guiding Philosophy: To be thankful for all that I have and to find a bright spot in all situations.

In the 60s, I...became more aware and was too busy with small children to notice.

Betsy Faye Pierce Schoonhagen
Charlotte, North Carolina

Spouse: Kenneth J. Schoonhagen (dec.)

Children: Kenneth, LeAnne, Laura; 10 grandchildren

Education: BSN, Nursing, Duke University.

Retired.

Career: Surgical clinical nursing; health screening and wellness teaching; office nurse, ophthalmology.

Hobbies and Interests: Gardening, church activities, supporting grandchildren.

Along the Way: Best travel memory: Meeting daughter Laura in Zurich and touring the Swiss Alps. Unexpected opportunity—selling designer ladies' clothing in my home, which provided private school education for my children.

Favorite Teacher: Phyllis Peacock

Best Class: Biology with Miss Freeman

Worst Class: Spanish

Memories: Assemblies, pep rallies, football games, marching band, Honor Society induction. Mr. Holliday and Mr. Holyfield.

What I Have Learned: The rewards of parenting are numerous. Hardships come, and, thankfully, they pass.

Guiding Philosophy: "I can do all things through Christ, who strengthens me."

In the 60s, I... grew my hair longer, but kept my job and was too busy with small children to notice.

This former Raleigh landmark defines me as well as any family portrait. The photo was made in 1939, the year I was born. Note the gas prices! My daddy, J.B. Pierce, (with hands on his hips), worked for Henry Allen from 1930-1951. Daddy and J.C. Abbott purchased the business and changed the name to the familiar Abbott-Pierce Service Station at the corner of Hillsboro Street and Glenwood Avenue. I am forever indebted to the success of this business and to the work ethic instilled through its operation.

Connie Pinyoun

Constance Valerie Pinyoun Gamble
Charlottesville, Virginia

Children: Son, Harry Gamble, daughter Allison Gamble Kelley; four grandchildren.

Education: BA, University of North Carolina; MA University of Virginia.

Career: I spent 35 years teaching eager beaver second graders. An elementary school is really an invigorating place in which to work. Those "little" minds love learning and having fun....a good combination for life!

Hobbies and Interests: Grandmothering Henry, Sophie, May and Fiona, traveling, yoga, walking, swimming, enjoying the out of doors, cooking and reading.

Along the Way: My two children have been a real source of joy in my life. At this point, they are grown, married and have families of their own. I adore the whole lot of them. One of the special things that we do is to take trips together. My children are Francophiles so we often go to France. One special trip was the Christmas that we took my mother to Paris. Another was a summer trip to Provence where we rented a farmhouse for a couple of weeks. Definitely the most unusual and life-altering trip was the month that we spent visiting Harry who was in the Peace Corps in Mali in West Africa.

Favorite Teachers: 1. Mrs. LaDu's French class. She had such interesting ways of getting us to learn French, such as translating voices she had recorded on the streets of Paris, assigning us skits to write

on a theme or interviews to conduct. 2. Mr. Holliday and Mr. Holyfield. I appreciate their wise leadership.

Memories: We had many good teachers and classes, but what knit us all together (students from Hugh Morrison, Methodist Orphanage and Broughton) were the extras such as pep rallies, school dances, sports events, school clubs and committees, the Hi-Times, plays, debates, the Hi-Y Follies, and weekly assemblies with the special senior procession in and out of the auditorium. Broughton is truly a very special place and I feel very fortunate to have been a student there.

Guiding Philosophy: When loss comes along, I realize that life is a rich smorgasbord of wonderful people to know, fascinating things to do and interesting places to see. The possibilities are endless for everyone.

Education: BA, UNC-Chapel Hill

Career: Social Worker, public relations for IBM, Raleigh. Sixteen years active board of Children's Hospital of Kings Daughters, Norfolk, VA. Contract educational testing with Westat, RTI, Foud Foundation.

Hobbies and Interests: Tennis, bridge, volunteer work, travel, golf.

Along the Way: We spend time on nice trips, Sunset Beach, babysitting, church work, Hilton Head. But our best times are with our three wonderful grandchildren, Hannah, Whitaker and Austin.

Best Class: Senior

Worst Class: Mrs. Strother

Favorite Activity: Hi-Y Follies

Memories: Football games, library club, lunch, etc. There is so much I remember that touches my heart. What always comes to mind are my friends. Even today, 50 years later, I still feel part of those who meant so much so many years ago at Needham Broughton High School.

What I Have Learned: The value of friends.

Guiding Philosophy: Be a friend; you will have a friend forever.

Spouse: Beverly Royall Rosser Reitzel

Children: Rose Dunnington and Philo, Lilly, Eva and John Adam Reitzel (pictured above).

Education: College: BA in psychology from UNC-CH ; two years graduate work in physiological psychology at UNC-G; PhD in physiology from NCSU.

Career: Tobacco barn inspector, waiter, dog trainer, painter, truck driver, social worker, construction worker, cab driver, burger slinger, statistician, teacher, lab technician, health club owner-operator, timber man, investor and general factotum.

Hobbies and Interests: Gardening, cooking, pool, chess, Scrabble, ATV and motorcycle riding, increasing my understanding of history and physical reality, digging fossels in Utah, and let's not forget good old sex (the silver lining of being a meat machine).

Favorite Teacher: Nell Kahdy

Best Class: Miss Cannon's algebra

Worst Class: Tempo Glover's physics class

Favorite Activity: Band trips

Memories: After the Class Night play (in which we both had parts), Macon Richardson and I sneaked down to the cafeteria, got some rolls to eat, and then went to watch the scholarship award ceremonies in comfort from one of those little rooms above the stage wings, while the rest of you guys watched from the front of the auditorium.. I had my graduation robes and mortarboard, but Macon was wearing bermuda shorts and a T-shirt. Suddenly, Mr. Holliday announced that Macon had won a scholarship. I will always remember the picture Macon made as he accepted his award in my far-too-large mortarboard, his skinny white legs visible beneath my robe.

What I Have Learned: It's no longer a good idea to get stinking drunk and drive around town at two o'clock in the morning. Of course, in our day we would merely get a scolding from the law. (Happily, I received this revelation in time.)

Guiding Philosophy: 1) PAY ATTENTION. 2) Don't believe every thing you think. 3) Be generous, it will come back multifold.

Sue Risley

Sue Risley Ingram
Enfield, Connecticut

Spouse: Joe

Children: Kim, Joe Jr., Jill and Jon

Education: One year at Meredith.

Career: After a brief stint as an engineering aide at United Technologies, I became a stay-at-home mom. Then, a paraprofessional in Special Education at the junior high level. **Retired.**

Hobbies and Interests: At present, Joe and I are enjoying extensive traveling, as well as being grandparents. We really enjoy the people and places along the way while RV-ing.

Along the Way: While our four children were school age, I was quite involved in our local school system. We have lived in Enfield, CT, for 48 years.

As our children became adults, Joe and I began spreading OUR wings. Trips to Japan, Europe and Australia were our highlights; six weeks in Japan, a brief visit to Europe, and most recently, three months in Australia and New Zealand.

We are also avid fans of traveling in our motor home. In the last 14 years, since retirement, we have been to Alaska twice, Newfoundland and Labrador, as well as all of the continental U.S. and all of the Canadian provinces.

We spend our summers around Connecticut, enjoying our children and their families, who all live nearby. We move the RV to South Fort Meyers, FL, for the winter. As we move from north to south and back again, we usually take the long way, visiting people and places in various areas of the U.S.

In the 60s, I... was too busy with small children to notice.

Daddy Barnes, the Music Man

By TEDDY HOFFMANN

Bob and Betty Barnes became friends of our family in the mid 40s when my dad was one of his professors at Miami U in Ohio, and that friendship has been cemented ever since. We left Ohio in 1948 and landed in Raleigh in '49 or '50 when Pop became the first State Supervisor of Music in North Carolina. In 1950, Pop learned that the band director job was becoming vacant at Broughton. At that time, the band met in an old wooden building behind the school. The building was dismal, and the band was dismal. The band had serious difficulties in contests.

Anyone who has ever worked or played under Bob knows that he is a master at working with people and getting the most from them. (I always looked forward to being around him in hopes that some of his charisma would rub off on me, and it never did!) He took the challenge. He didn't go to the contest that first year, but worked on his students' musicianship and all that involves.

He developed, and copyrighted, a progressively difficult step program, *33 Steps To Musicianship*, that his students would SLAVE over. We would play each step for him and if it wasn't just right, we then got to practice it until it was right, then we got our pin and could move on to the next step. In 1954, he took our band to the contest in Grade 5 (Grade 6 being the highest) and received a Superior rating. Then, in 1955 (my first year in the symphonic band), we competed in Grade 6. Only two other bands were in Grade 6.

We performed just before the supper break and when we finished, everyone stood up, and we thought they were hungry. There were three judges. It was the first time that a first time Grade 6 band got a Superior rating, the first time that all three

judges gave Superiors, and the first time that the judges gave a standing ovation! One judge wrote in his comments, "We should have paid to hear your performance insted of being paid to judge you," or something like that. We were proud and ecstatic!!!

Well, Pop learned that the State College Band director's job was available and sent Bob over there. There was no music department, just a few guys who liked to play. Bob got the powers-that-be to create a music department with one credit hour for playing in the band. He then went through the applications of every student to find people who had music backgrounds but decided to become engineers instead. He contacted each of them, the State College Symphonic Band was started, and it became the best marching band in its conference. The NCSU music department now has its own state-of-the-art music program and building.

I was in the Army while all this was going on and very excited about coming home and playing again under Daddy Barnes (as we called him behind his back), but noooooo, he took a leave of absence to go to Ohio State and get his Ph.D and never returned. The main man up there knew what he had and made a job for Bob as assistant to the president. One of his many responsibilities was to create a satellite community college, which he did, and it was accredited in two years instead of the usual six. So he built a second one with the same results. After

he made his mark there, he decided to retire after 30 years in the education business.

BUT! An old friend of his owned a failing trucking company in Ohio, and he insisted that Bob take over and fix it. And he did! All is well and profitable. He is retired now and loves brass bands and incredibly talented young musicians. He got that from us! We love you Bob Barnes. Thanks for the trip.

Guiding Philosophy: Treat everyone with dignity and respect.

In the 60s, I... became more aware.

Peace Corps Trainer, 1965-66

After recruiting for the Peace Corps on university campuses—civil rights was the major issue with students, not the Vietnam war as yet—I became a trainer for Peace Corps volunteers going to Micronesia. We tried to recreate that setting in the Florida Keys. Here I am with other trainers on site, the old movie set of *PT-109*.

Betty Kay Separk Vaughn Mt. Airy, North Carolina

Spouse: Richard

Children: Carol and Rick; five grandchildren

Education: St. Mary's

Career: Secretary for director of NC Hospital Association, 1960-61. Secretary for marketing director, Warner Lambert Pharmaceutical, 1961-1963.

Hobbies and Interests: Bridge, golf, animals, grandchildren, and Richard.

Along the Way: Twenty years a trustee for Surrey Community College. Church Reeves Community Center. We let the grandchildren decide where the 11 of us go on spring break. Our most favorite in the last five years was South Africa. This year "the Clampetts" destination was Aruba. The animals include llamas, alpacas, horses, buffalo, dogs and cats.

Favorite Teacher: Mrs. Peacock

Best Class: English

Worst Class: Chemistry

Favorite Activity: Watching football games.

Memories: I moved to Raleigh at 16 years old as a junior. Thank godness for "my girls"—they know who they are—took me under their wings.

Skipping out for lunch to Cameron Village with a spider in the car. All four doors fly open. We were not happy campers.

What I Have Learned: What it is to be a wife, mother and grandmother. I made some of the most dear and long lasting friends.

In the 60s, I... was too busy with small children to notice, and the 60s are a little fuzzy.

Ann Smiley

Ann Guilford Smiley Gillman
Baker, Florida

Spouse: James (Andy)

Children: Alicia and Amanda

Education: St. Marys; UNC-Greensboro, BA in English.

Career: Writer for radio and TV in North Carolina and Florida. Assorted Manpower adventures. Office manager for Pensacola synagogue; data manager for Department of Children and Families.
Retired.

Hobbies and Interests: Lots of assorted crafts; crocheting items for nursing homes. Caregiver for Andy; he has laryngeal cancer and ileostomy. I also do computer work AND reading, of course.

Along the Way: Awards for TV and radio commercials and documentaries. Tiffany Award for outstanding performance from Manpower.

My passion? Two beautiful (though unmarried) and successful daughters and quiet time with Andy—finally—after 38 years of marriage.

Favorite Teacher: Miss Taylor

Best Classes: Sophomore English; Latin

Worst Class: Any and all math classes

Favorite Activity: Violinist with orchestra

Memories: Beating Bellamy by two points on an English test! The Ides of March with Miss Strother, who called me by my brother's name, Tom, for two years! Concerts with the combined orchestra and symphonic band. Queen of Hearts events. Friday night football games. Hurricane Hazel and the school evacuating. Science Fair project in physics—Gail Smith and I were the only two girls in the class. Gilmartin in senior English. Singing Christmas carols in French all through the halls.

Alicia lives in Georgia and loves the beach.

Amanda lives on our property in her own house with two HUGE dogs. She commutes to Pensacola where she's a commercial property manager. Our house is 60 years old, and we have two fish ponds well stocked.

What I Have Learned: Our parents and teachers were almost always right, and they really were smarter than we were.

Guiding Philosophy: Let God lead me each day. Andy's health issues are a real challenge.

In the 60s, I...tried hard to ignore the 60s—too many crazy people! I was busy writing!

MY DAD & JOE *a story of two educators*

by Lyn Holyfield Finnelly

It seems as if it's been since the beginning of my life that my daddy and Joe have been friends, and when I stop and actually think about the years, dates, and events . . . I realize that it is almost true. (Oh my gosh, it has been 50-plus years!)

My first real memory of their relationship is of my dad sitting in his car in our driveway early in the morning, often before the sun would come up. His horn would blow, and through the trees I could see Joe come trotting down his back steps to ride with Daddy. Later that day, most likely after the sun had gone down, they would drive back up our drive together. Joe would hop out, saying over his shoulder, "See you in the morning, Holy!" My dad, offering back, "Have a good evening, Holli."

In our daily lives, the families of these two men played together, rode the school bus together, planned meals together, etc. We lived just next door, across the kudzu, split rail fence, and Mama's wonderful world-conquering bamboo. My dad and Joe had purchased this "land" from a Mr. Phelps a few years before. This "land" was on a dirt road, located in the valley below the home of Kidd Brewer. A "prime piece of land" my daddy assured us, often. He was always a dreamer . . . always hopeful.

This "prime piece of land" was located on Edwards Mill Road, just across the field from Hwy 70. Believe me, there was nothing else there but this prime piece of land and us. Daddy had searched out this piece of land after "years" of prospecting. Joe trusted his research.

We had horses, dogs, cats, and children. Our family moved out there a few years before Joe's. My daddy needed to build a house quickly to make a "home" for his parents. Joe continued to live in the Village, until his family was ready to move. Soon we were all together. Along with the Raymond family, a small enclave on a lonesome dirt road . . . living a great life, seemingly then many miles from Raleigh.

My dad and Joe had begun working together at Broughton, as assistant coach and Dean

SEATED, J. WATSON HOLYFIELD, ASSISTANT PRINCIPAL, 1957-1968;
STANDING, JOSEPH Q. HOLLIDAY, PRINCIPAL, 1953-1968

of Boys, respectively many years before. They rode together and worked together . . . for years. When it snowed, they were the ones to drive the streets of Raleigh together to see if it was safe for the buses and if we should have school. They spent their entire summer of their "11-month job" putting the kids into classes. This consisted of wallpapering all of the black-topped science tables with index cards and setting the schedule for students by teacher, by hand—a twenty-four-hour-a-day job for days. No computers then! As a child, I used to run through their offices to say hello and still see them in my mind bending over those tables with those little white cards in their hands. I realized none of the pressures or deadlines at my age.

Sometime during the next years, Daddy went from Coach to Dean of Boys, and Assistant Principal. Joe moved from Dean of Boys, Assistant Principal to Principal. Their lives were Broughton . . . our families' lives were Broughton. I remember vividly the faculty picnics at Umstead, a truly fun and family-oriented event. I remember the sporting events . . . football and basketball were the big ones then. Our family went to all and afterwards there were the coaches' great get-togethers at someone's home. We would all attend!

During this time, I believe that Daddy and Joe still rode together each day. Both families by then had two cars, but their schedules, their lives were the same . . . they kept on with their routine.

Our families grew older. My brother and I were a little older than Joe's children. We went on our life's way, grew up and started our own families. Soon Joe's children followed. Daddy's and Joe's careers remained in education, with Joe moving to Central Office and Daddy serving as Sanderson's first principal, and then on to Central Office. I am assuming at some point they stopped riding together, but, alas, were still driving to the same location to work every day, just not down to Devereux Street.

There is some sadness here just as in all families. Joe's loving wife, Jane, passed away after a lengthy illness, bravely fought. Daddy lost the love of his life, Dot, not too long after. Their losses were shared too. Were they destined to continue their "careers" together?

Soon Raleigh encroached upon their "prime piece of land" (40 years in the making). Decisions had to be made, tough decisions. Yards too big, house maintenance too worrisome, and empty houses were becoming a problem. After much discussion and re-discussion, the "land" was sold and plans were made to move to the beach. This beach was our family's respite, we had gone there since I was a little baby. We had owned a home, considered our

family treasure. Joe and his family had also come down through the years . . . it was a special place to them, too.

For the first year, Daddy and Joe "bached" it in a high-rise condo, while they watched over the day-by-day (second-by-second) building of their new homes. It seems to me that this is where their culinary stage began; Dad being a chicken and dumpling man with "plenty of pepper for seasoning" and Joe with a little more unique but absolutely delicious dishes. One would cook, the other would clean up.

Identical homes were begun; homes they had designed. They would have the same floor plan, roof pitch, railing, lawn design, etc. The only differences were Joe's preference for green and Daddy's preference for beige color tones on the outside. I believe that Joe had also held out for different window pane features after much discussion.

During a 6-month illness of Daddy, Joe and I continued to "build" Daddy's home, with Joe as the on-site coordinator to ensure completeness and me as the go-between Raleigh and the beach bringing samples and informing of the different events / delays / cost differentials. We even chose the interior flooring, wallpaper, paints, etc., to the complete satisfaction of Daddy—a proud moment for Joe and I!

Now on the inside of their identical homes, Joe has years of antique-hunting treasures. His home is lovely, with very special appointments and a wonderfully elegant, yet homey atmosphere. Daddy's home is a collection of little things he and his Dot purchased, not quite all matching, but full of memories right down to the glass marks on the tabletops.

But in both homes, as you look around, one can still see Broughton. There is a pen and ink by Jerry Miller, in both homes. There is a "fruit bowl" still life by a former Broughton student and a glorious green painting by Alice Ehrlich on Joe's wall. You will even see an old Latipac on the coffee table as you enter Dad's place.

And if you visit . . . you must come prepared to listen. Broughton will be the topic. Most likely you will hear of how "things" have changed . . . mostly not for the best in the school system. You will hear of the "VW" on the second floor of Broughton that some renegades actually (truly!) deposited for a prank. It was left there over a weekend for Joe and Daddy to discover on a Monday morning. You will hear of Daddy and Joe shoveling coal in those early morning hours when the heat would not come on at Broughton. You'll hear

of very few scandals, you'll hear of the dedicated teachers. A time when "skipping school" was the worst one could do and of how dropping the dress code caused most all of the problems that are in evidence today. The "kids" at Broughton are also mentioned over and over. A lot of those kids were quite ordinary and are talked of often. Hoping they made good . . . passing on a wonderful story of their defining moments. Then there are the "kids" who did well, the former mayors, the business owners, the educators, the coaches, and all those basketball players from the class of '51-'52 that Daddy coached. You'll hear of

"And if you visit, you must come prepared to listen. Broughton will be the topic. Most likely you will hear of how 'things' have changed . . ."

Daddy's good luck routine involving not taking off his underwear for three days during the 4A basketball tournament—THEY WON, TOO!

You'll hear, too, of the people gone from Raleigh. The folks who have passed on—Mrs. Peacock, Herr Watts, Mrs. Penny, Mrs. Cogdell, Mrs. Rinne, and many others. All heroes in their eyes. Of course, you will hear some tall tales also, mostly from my dad. Joe will back him up quietly with a sparkle in his eye. Just as a loving family member, he won't betray the story or the storyteller.

So now after 50 years, they are still living side by side. Their families come. We visit across the balconies; we trade stories, stories of our children and our lives. We talk of when I baby-sat for Joe's kids, and we talk of when my daughter baby-sat for Joe's grandchildren. Our lives have taken on that fast pace. We are raising children.

Before traveling became too difficult for my dad, the two of them tried to see the world. They have been on a cruise to the Bahamas, boated to Alaska, caravanned in Nova Scotia, and just last year jetted to Spain. They have met old war buddies in New Orleans, seen the Braves in spring training in Florida and in-season in Atlanta. They have been to

St. Louis to see the Cardinals, and even seen a couple of NCAA Basketball Tournaments. The best part of the trips is always the planning. This takes months, the roundtables between them, the negotiating, assuring the other that each will get to see "that" special site they desire so badly.

Years later in the early morning hours, Daddy and Joe leave their homes together. The horn will blow, Daddy slowly, deliberately walks down his steps. Joe is sitting in his car waiting for Daddy, now. It's best that Daddy not drive anymore the doctor says. Off to breakfast they go. The topics of the day soon head in the direction of Broughton. One of them will ask a "trick" question and the better part of the day will be spent razzing each other over the right and wrong of the question and answer! They quiz each other on a particular student that did something unbelievable and try to remember their name. "They" are the breakfast entertainment most mornings.

My dad is not as healthy as he once was and getting around is difficult for him. But Joe is always there. Coming from the beach to bring his special items. Remembering to have his lawn mowed, have his house cleaned, and to pass on to the locals the latest report on Daddy's recovery. I always know Joe is waiting patiently for Daddy's return to the beach.

And now, as I prepare my Broughton senior of the class of 2000 for graduation, I walk the campus of Broughton often. When I am visiting there is a little catch in my throat. The memories are overwhelming—two families intertwined throughout these halls, from generation to generation. When I am there I want to share with everyone I see what an impact this place has had on all our lives. I have even caught myself telling secretaries that their office was formerly my daddy's. I tell of Joe's planters hanging on the walls in "this" office, placed there by his wife. I browse through old Latipacs and see my dad's picture with Joe, smiling—noticing my brother's and my pictures in the background, placed there by my Mom.

I have written this for the Broughton Alumni Newsletter. It may not even be publishable, for you see, I was not a student of Mrs. Peacock. In fact, I was quite an ordinary student. But I have been touched by the Broughton mystique . . . passed on through my dad and his friend, Joe. No truer friendship can there be born and nurtured through the life and love of Broughton High School. I cannot describe the feeling that overwhelms me in admiration and respect for these two gentle . . . men. ■

Classes at Georgia State and Emory in Atlanta.

Career: Thirty-seven years of my 44-year career was spent predominantly, and beneficially, as executive assistant to top corporate executives. I have concluded this properly prepared me for the day in 1997 when the board of directors of a company in the hotel industry, for which I had worked for 15 years, named me as president. I held this position until my retirement in 2004.
Retired.

Hobbies and Interests: Journaling and scrapbooking—in other words, trying to organize a lifetime of memories. Spending time with “the grands” and dear friends, going on dinner-and-a-movie dates with Reg; cheering my much-loved Atlanta Braves.

Along the Way: For certain, the most notable events that occurred along the way were the births of Reg's and my three children and six grandchildren. Treg and Paige were born in Raleigh and Lance in Silver Spring, MD, during the years when Reg was with the Marriott Corporation at their Maryland headquarters. Almost exclusively (and perhaps to a fault), both my passion and my cause have always been devoted to our three children and their offspring. And we could not be more proud of the fact that each of the three out-achieved and out-earned us...and what is more, they are very best friends to one another, which is surely Reg's and my greatest legacy.

Favorite Teacher: Ms. Sherwood

Best Class: Senior English with Mrs. Peacock

Worst Class: Geometry

Favorite Activity: Attending Caps basketball and football games.

Memories: For me, Broughton was, first and foremost, the place I hurried to every weekday morning to be with my awesome friends (and boyfriend). And secondarily, the place from which I would receive an education. (Thankfully, most of the education took hold and served me well in my adult life. My five years at Broughton were so extraordinary and so memorable that I hope some day to chronicle them in my memoirs. In doing so, I would declare that the Class of '58 was, hands down, Broughton's best class ever. I believe that with all of my heart. Included would be cherished memories such as dreamy dances in the gym, football games at Devereaux Meadows, Friday assemblies (I loved them all), signing Latipacs (maybe my most favorite day of the school year), slumber parties and Saturday morning come-as-you-are parties, swimming every day at Hayes Barton pool, and writing *The Younger Set* for the News and Observer during my senior year. Life WAS good.

What I Have Learned: That being born in 1940 in Raleigh, NC, and living there through high school was the best thing that ever happened to me.

Guiding Philosophy: “Life is not measured by what you do, but what you do for others.”

In the 60s, I...was too busy with small children to notice.

Bud Tripp

Alton Parker (Bud) Tripp, Jr.
Reston, Virginia

Spouse: Alice Wagner Tripp
Children: Amy and Alissa;
four granddaughters.

Education: BSEE, MSEE, Electrical Engineer
(professional degree between Master's and ScD)
at MIT.

Career: Student and/or instructor at MIT, 1958-1970. Design engineer for small New England high-tech companies, 1959-1970, part time, in semiconductor testing and information technology. Worked fulltime in 1970 for a small New Hampshire company that pioneered text editing systems for newspapers. Got involved in office automation in the late 1970s and bought an OCR company. Went into turn-around management consulting in 1985 and commuted for five years between the San Francisco Bay area and New Hampshire. Switched to power electronics in 1990 and worked first as engineer and later as president of a custom power supply company in NH. Switched to software systems in Virginia in 1993 as CFO and COO for a small company that provides computer membership systems to associations and other organizations that deal with a lot of members. Retired from that company in 2008. **Semiretired.**

Hobbies and Interests: Music, food (including cooking), things computer or electronic, digital photography and video. Racquetball whenever I can find a partner; taking 4-5 mile daily walks when I can't. We subscribe to the Washington Ballet series, the Fairfax Symphony, the Shakespeare Theater, and attend performances ranging through opera, dance and all sorts of music at Wolf Trap.

Along the Way: Three weeks in Spain and Portugal with wife and younger daughter in 1999. Visited Argentina and split time between Buenos Aires and Alto Plano region near the Bolivian border. Things are different at 13,000 feet—there are a lot more stars, and a lot less air. Seeing the 20,000-foot snow-capped peaks of the Andes from a plateau at 13,000 feet made local mountains seem pretty tame.

Favorites and Memories: Favorite teacher is a tough question, but Mrs. Kahdy and three years of German ranked high on the list. When she came back from her first trip to Bavaria, she told the class that the Bavarians and other Germans from the south of Germany spoke with a Southern accent. That was cool. I was Miss McDearman's lab assistant and created some unplanned excitement the day I tried to make picric acid under the hood in the stockroom and ended up rushing out of the stock-

room into her full classroom followed by a brown cloud of nitrogen dioxide that was too much for the hood to handle. Everyone had to be evacuated from the classroom. And then there was Miss Cannon. I learned a lot from her and have never stopped loving math. One of my high points at Broughton was becoming the NC High School Mathematics champion in my junior year. Even though our math department did not teach calculus, I received grounding in algebra and geometry that helped me do well on those tests and win that award.

I had Miss Freeman for chemistry and vividly remember the day Chip May burned a hole in one of the lab tables. He had the proper makings for thermite in a cone of filter paper with a pie pan and some sand beneath to catch the molten iron that would result from the demonstration. Unfortunately, the first part of the flood of hot molten metal brushed the sand aside, burned through the pie pan, and then ate its way into the top of the lab table. It was a spectacular demo.

Band was a big part of my experience. I battled with Ray Winton over first chair clarinet, and we had some very competitive duets in the practice rooms after school. Jerry Price and I were twin drum majors, and there are a lot of memories of away trips. A lot of cuddling occurred on those trips. Then there was the time before a game in a restaurant in Goldsboro or Rocky Mount when Mike Wise innocently asked the waitress what "Rocky Mountain oysters" were, and we were asked to leave the restaurant because she thought he was putting her on, even though they were on the menu.

I fell into track when I found out in phys ed that I could jump higher than almost anyone else. That led to lettering in track and a tie for a medal in one state competition. Watching what later athletes did with their oddball styles has always made me wonder whether I could have won the state championship if I had practiced more and developed a better style.

What I've learned /Philosophy:

- a) There is no such thing as a free lunch.
- b) If it sounds too good to be true, it probably isn't.
- c) You should always treat everyone with respect—there's no excuse ever for tearing down someone else's self image or causing them to lose face.

In the 60s, I...was in school at MIT. I worked as a design engineer on the Polaris program, later on anti-submarine warfare for the Navy, nuclear test detection under a DOD program at Lincoln Labs. Those jobs and being a student and teacher kept me out of Vietnam, and I didn't really have time to be a flower child. I was definitely anti-war then, and still am, but I don't remember any major protests. I had much longer hair, but never enough for a ponytail.

The National Forensic League or the N.F.L. as it is commonly called is an organization devoted to speech work and all of its phases. The N.F.L. is open to all students here at Broughton. There are a various number of speech activities in which one may participate. They range from practice tournaments, debates, congresses and tournaments sponsored by outside organizations. To become a member of the N.F.L., one must have twenty-five points. The points can be acquired by participating in the various tournaments. As a certain number of points are reached, certificates are given. Also, recognition can be gained from participation by receiving trophies, ribbons, or honorable mention. Plus participating in speech work, N.F.L. members travel to different places and make many new friends. The N.F.L. is a beneficial organization.

Spouse: Larry Ward

Children: Elizabeth Anne and Amy Carolyn; two grandchildren.

Education: AB, Education, UNC-Chapel Hill

Career: Elementary teacher, K-5. **Retired.**

Hobbies and Interests: Reading golf, babysitting grandchildren.

Along the Way: Faith family—Central United Methodist Church; involved in many opportunities to serve, 1973-present. Since retiring from teaching, I coordinate volunteering with church and nearby elementary school. Best vacations—yearly family trip to Topsail Beach. Best single trip—Seattle to Portland to Yellowstone to Rapid City to see our daughter in the Air Force to Denver to home.

Favorite Teacher: Miss Penney

Best Class: Biology

Worst Class: Geometry

Favorite Activity: Decorating for dances

Memories: Favorite day of the year was Fair Day, when we got to wear jeans to school and got out early to go to the State Fair. I enjoyed attending football and basketball games with a group of great friends. Senior trip to New York City.

What I Have Learned: Life is full of surprises—both good and not so good—best shared with the people you love.

Guiding Philosophy: The Golden Rule

In the 60s, I... became more aware and was too busy to notice. The 60s are a little fuzzy. What was the question again?

Joel Warren

Joel Warren
New York, New York

Family: I am married to a wonderful woman from Greensboro, Diane Barth, who went to Duke and Columbia and is a psychotherapist in private practice in Manhattan. She also teaches, supervises, and writes for professional journals, with a specialty in eating disorders.

Our only son, Simon, was born when I was 49. Having gone through the New York City school system, he is a sophomore at Yale, on the heavy-weight crew team, and this summer studying, Mandarin in Beijing.

Education: Duke, BA '62; Yale BD '66.

Career: Many and varied. I have tried to change jobs every 5 years or so. First 15 years after graduate school I was a university chaplain at Yale, then at Penn, and then on the staff of the Riverside Church in Manhattan. Have also been the Managing Director of a number of large non-profit professional theatres – PAF Playhouse, Helen Hayes Performing Arts Center, Pittsburgh Public Theatre, Phoenix Theatre, American Stage Company, and others. . .including one symphony orchestra. Have also managed several non-profit organizations that work with at-risk populations. For the past nine years have been Executive Director of the Fairchester Division of the National Foundation for Teaching Entrepreneurship, an organization that seeks to keep low-income kids from dropping out of school

by teaching them the basics of how to start and run a small business around their primary interest. I am working full time. Have no idea what I would do if I retired.

Along the Way: Having a fused ankle at the age of 50, I can no longer run, so no more basketball, squash, or tennis. But we do love to hike and bike, and even enjoy our regular regime of Pilates to stay in shape. Now that my son is away, I have lot more time to read, which I love.

We have had a very blessed and happy life on the Upper Westside of Manhattan for the past 30+ years, one of the most diverse and interesting cities in the world. We also spend many of our weekends in our home in the Berkshires, near Tanglewood in Massachusetts. And we travel quite a lot, occasionally to North Carolina, and Florida quite a lot for Diane's family, and to Europe usually once or twice a year. (Photo above is in Italy.) We serve on several boards, work in the local homeless shelter, and are active in liberal causes. (Having worked for William Sloane Coffin both at Yale and at Riverside Church and shared his passion for social justice, it would be hard to do otherwise.)

Favorite Teacher and Best Class: Ms. Peacock was the teacher that prepared me for eight years of college and was no doubt my best class.

Memories: Being on a modest athlete, I did enjoy my tenure on the tennis team and the opportunity to go to the state finals.

Children: Kimberly Wynns and Wade Davison; two grandchildren.

Education: BS in Physical Therapy, MPH (Masters of Public Health), both at UNC-CH; MAc (Masters in Acupuncture), TAI-Sophia Institute.

Career: Physical therapist, health planner, End-stage Renal Disease Coordinating Council of NC (Federal liaison), consultant, acupuncturist.

Hobbies and interests: Sailing (USCG License); skiing, walking my dog, Really enjoying my work, an active spiritual life.

Along the Way: I've had some great travel experiences – Germany (lived there three years, back again two years ago), France, Spain, Italy, Denmark, Amsterdam, Thailand, Canada and many U.S. cities. My leap of faith to acupuncture (back to school for nearly three years) is going well. It's my retirement life and I'm grateful to be enjoying this stage of my life. One of my challenges and joys at times frustrations has been raising my son, who has Downs Syndrome. Fortunately, he is very well adjusted socially and lives on his own and works at Fresh Market. He's very active in Special Olympics with biking, skiing, and gymnastics. He's got some great folks to that help me by helping him. He, my

daughter, her husband and kids all live in Raleigh which is great! I also serve on the North Carolina Acupuncture Licensing board.

Favorite Teacher: Mrs. Nell Kahdy

Best Class : Biology with Mrs. Shore

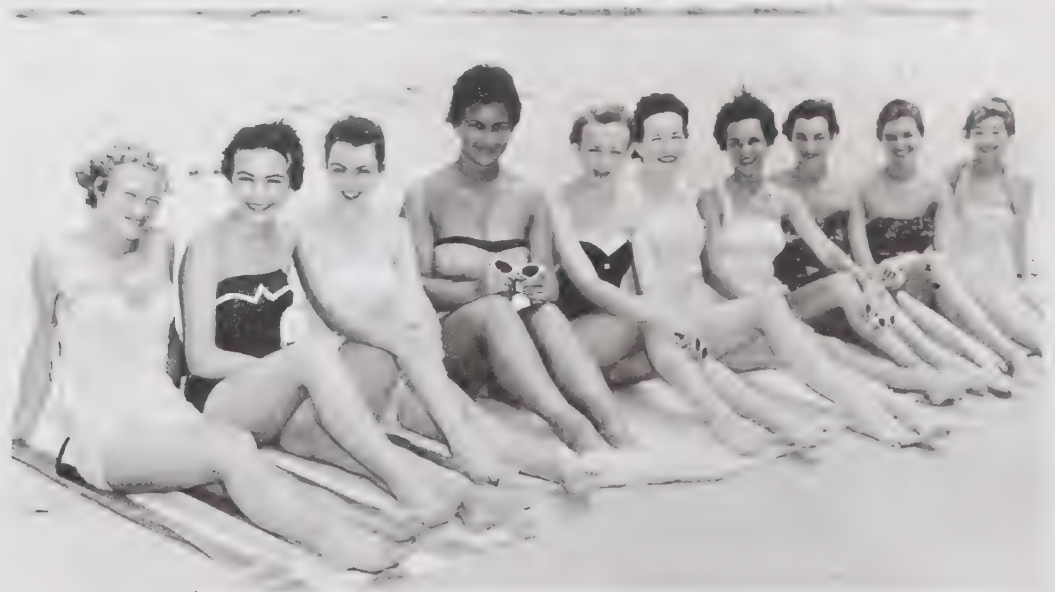

Favorite Activity: Had to be Symphonic Band and Marching Band

Memories: Great trip to Floride with the band, Many trips to football games with the marching band. A great group of girl-friends – slumber parties, home parties. A nice gang to walk home with after band practice—can you imagine walking??? Wow.

My most difficult time was moving away the summer of my Junior Year to Guilford, CT. So, I actually graduated from Guilford High School. Glad I have the opportunity to continue to feel connected to the our Class of '58.

What I Have Learned: I love men, AND life without marriage can also be very rewarding.

Guiding Philosophy: I believe we are all one — what ever happens to one of us happens to all of us—life is good. I have adopted quite a bit of eastern philosophy — things are—remain detached—practice non-judgment, unconditional love, be compassionate, serve, LAUGH!!

Senior Song

1958 Senior Class Farewell Song
To the tune of "NOW IS THE HOUR"

Now is the hour, when we must say goodbye.
Though we are leaving, here our memories lie.
Down through the years, the friendships we have shared,
Have shown us Broughton just how much we care.

The football games we played in rain or shine,
Our Queen of Hearts, Class Night, the Senior Line,
The senior Prom, our week-end at the beach,
These are the memories cherished now by each.

Worst Class: French

Favorite activity: End of school each day.

Memories: Football games, dances, trips to the beach, meeting a girl before and after school, getting food at the Creamery, weekend dates to the drive-in hamburger restaurants, spending time in Mr. Holyfield's office after getting in trouble for which I was innocent, and graduating in 1958.

What I Have Learned: Life is short—try to find something good and positive in each day to make life better for yourself and those around you. Be flexible, love a lot, forgive, realize you do not have all the answers nor need them, appreciate others.

Guiding Philosophy: Embrace the holistic approach of loving God with heart, mind, soul and spirit.

In the 60's I... became more aware. . . was too busy with small children . . . and much of it is still fuzzy.

Favorite Teachers

Mrs. Nell Kahdy was named as favorite teacher by 17 classmates. She attended the 40th reunion with Principal Joseph Holliday, left, and husband George Kahdy, also named as favorites.

Roger Williams

Roger Marshall Williams
Gaithersburg, Maryland

Spouse: Nancy

Children: Mason, Lynne; four grandchildren.

Education: Engineering degree from Duke.

Career: System design at Newport News shipbuilding. Power plant design, licensing at Bechtel Corporation. **Retired.**

Hobbies and Interests: I have continued my lifelong interest in photography and now include genealogy. I have researched both of my parents' families and published a booklet on my mother's family in 2007. I have also researched families of my wife, daughter-in-law and son-in-law, and a neighbor. It is fascinating to find additional pieces to their puzzles.

Along the Way: We have developed an interest in Pre-Columbian societies, especially the Maya. We have traveled to Mexico (numerous times), Guatemala, Honduras, Belize, and Peru. I am treasurer of the pre-Columbian Society of Washington, DC, Inc.

Favorite Teacher: Miss Paschal

Guiding Philosophy: It is much easier to keep your story straight if you tell the same true story every time.

In the 60s, I... was too busy with small children to notice.

Editor's Note: Roger has no Broughton photos of himself, because he was always behind the camera. The Student-Faculty Game, the Senior Picnic, and the Graduation portfolios are all his, plus other single pictures throughout. He took the Vietnam Memorial photo at my request.

Class of '59 Chooses Officers, Editors and Business Managers

On Monday, April 28, the Junior Class met in the auditorium to discuss the election of officers for the Senior Class of 1959. The following day nominations were conducted and the following people were nominated: Mac Goodwin, Ivan Jones, and Stanton Tuttle for president; John Cameron, Don Cammilleri, and Johnny Wardlaw for vice-president; Mary Lou Dorris, Betsy Poe, and Sandra Shaw for secretary; Brooks Garrett, Rella Jean Lancaster, and Ruth Givens for treasurer; and Riley Pleasants, David Poole, and Smedes York for sergeant-at-arms.

After the first election vote on Wednesday, April 30, Sandra Shaw was elected secretary. On Thursday runoff for the other offices. The incoming Senior Class elected Mac Goodwin as president, Don Cammilleri as vice-president, Brooks Garrett as treasurer, and Riley Pleasants as sergeant-at-arms.

The elected student council, led by Mac Goodwin as president, will be in charge of publishing the HILTIMES for 1958-59.

Lothian, Shearin, Poe, Cheves, and Dixon Elected to Run Student Council For '58-'59

Power of the auditorium and campaign speeches in the auditorium were on the main schedule at Broughton during election week. Everyone at Broughton was making the important decision, "Who should I vote for?"

Running for president were George Lothian, Mac Goodwin, and Stan Tuttle. Seeking the position of vice-president were Bob Shearin, Robert Houtz, and Don Buffaloe. The candidates for the important job of secretary were Jean Poe, Pam Lothian, and vice-president, George

MISS CANNON HOLDS OSCAR FOR TEACHERS

Miss Mary B. Cannon, a former mathematics teacher at Broughton, won the first North Carolina "Oscar for Teachers" April 16. The award was from the State Federation of Women's Clubs; it was presented at their state convention in Charlotte. Miss Cannon, now a teacher at Josephus Daniels Junior High in the city, and district vice, will represent the state in national competition. She received a plaque, a \$100 savings bond, and a week's vacation for two at Nags Head.

Miss Cannon has never missed a day of her 34 years of teaching. She came to Raleigh in 1936 when her principal from Roper High asked her to join his staff. She has never missed a P.T.A. meeting either.

SUPERLATIVES OF THE CLASS OF '58

Annette Gull and Terry Liles have also been elected to the office of business manager for the 1958-59 term. The publication of the senior annual is a project of the Senior Class.

The elected student council, led by Mac Goodwin as president, will be in charge of publishing the HILTIMES for 1958-59.

Flu and Measles Break Attendance Records

Flu and measles have cut down as many as 20 percent of the students as are other students in the senior class. Harold had perfect attendance from the time he was in the first grade and his senior year of high school. During the year of '58 the bug caught Harold, and he was absent from school for two days.

Despite the flu epidemic and the measles Ray Stephens, Jim Scott, Cecil Wilkins, Hubert West, Cynthia Norman, Jackie Lowmy, Eleanor Quirk, Dick Hendricks, Judy Halsey, Frank Reilly, Judy Ray, Paul Burroughs and Teddy Davis, have had perfect attendance this year. During their school career, Beverly Wright and Ann Middleton have had four years perfect attendance. Sam Stone, Judy Davis, Eleanor Quirk, Dick Hendricks, and Cynthia Norman have had three years perfect attendance.

Beary Beasley, Dayne Brown, Kenneth Brown, Bryan Noah, and Morle Summers have had perfect attendance for one year during high school.

Frank Ziglar Wins In State Science Fair

Frank C. Ziglar's exhibit, "Paper electrophoresis," has won one of six awards at Broughton, district award, the top award in the physical science division of North Carolina Science Fair. At Duke University Frank won first place in the North Carolina Science Fair which includes ten dollars and an expense-free trip to Flint, Michigan. At the National Science Fair at Flint he could possibly win first prize of \$125 of scientific equipment.

Frank's prize-winning exhibit consists of charts for explaining paper electrophoresis and other charts for showing its result. The exhibit also includes equipment for demonstrating chemical mixtures into their different parts for identification and analysis.

Program Scheduled for Memorial Auditorium

Over 15,000 invitations have been sent out announcing the graduation of 389 Seniors. The graduation exercises, commencing a full week of activities, will take place Friday night, May 30, at Memorial Auditorium. Superintendent Jesse O. Sanderson and Principal J. O. Holliday will present the diplomas. Bellamy Hamilton, class valedictorian, will deliver the address. The entire program will be under the direction of Mike Wise and Carolyn Rose.

Baccalaureate services will be Sunday, May 25, at the auditorium. Various parts of the program will be presented by Patti Ireland, John Daisey, and Horace Bone, all graduating seniors. Rev. John S. Brown of West Raleigh Presbyterian Church will preach the sermon and Rev. J. Kerr Ormand will give the benediction. Joel Warren and Betsy Ann Lumbe are in charge of the service.

Co-chairmen John Soden and Mary Beary have announced that the annual picnic will be on Wednesday, May 28, at Camp Dewart. The following evening the class night program will be held at the school auditorium. Class night co-chairmen are Paul Burroughs and Neil Briggs. The Senior Assembly on Friday evening is under the supervision of Freddy Johnson and Winston Shearon.

Working throughout the Senior Week will be the over-all co-chairmen, Grady Ferrell and Bellamy Hamilton. Mrs. Nell Kahdy is advisor for the class.

Total Value of \$100,000

50 Broughton Students Win Principal Praises Their Harc

By JOE RAFF
Times Staff Writer

"There are still some youngsters interested in coming to school and doing some work," said Needham Broughton principal J. Q. Holliday noting that approximately 50 of his students have received college scholarships.

This year's graduating class is unique in itself, but the number of students winning scholarships is phenomenal.

Scholarship awards for the students who are being graduated this year at Broughton total a value of approximately \$100,000.

About 300 students are receiving diplomas from the high school this year. Of the 300, almost one-third of the seniors leave the school with a scholastic average of 90 or better.

"We are especially happy about this," said Holliday, "in the light of popular accusations directed toward education today."

Holliday has not allowed his school to slip with the declining national standards. He stresses hard work on the part of his students.

"We still believe in academics. We have never gotten away from the fact that we must believe in it. At the present time," Holliday continued, "there is a need for academic education—more than ever before."

Holliday said there was a good distribution in the stipends to students of both arts and sciences with perhaps a degree more of the students going into the sciences.

Many of the students will go to North Carolina colleges and

universities with a sprinkling of the scholars going to Harvard, MIT, Oberlin and other institutions out of the state.

A heartening trend is appearing among members of the student body. Holliday pointed out that this year between 70 and 80 per cent of the seniors plan to pursue advanced education whether it be university studies, nursing, technical training or other aspects of further study.

"This is a terrifically high percentage compared with the national average," Holliday said.

Holliday said the curriculum at Broughton is designed for the furtherance of education in general.

"Our set up," he said, "is designed to provide for students with any educational needs, but we are especially well equipped for college preparation."

The record made this year by the faculty and students speaks well for Holliday's design.

A Place That Made Me...Me

Long ago, for some a life,
In a place that's dimmed by time,
Needham Broughton High School
Shone brightly in its prime.

The Class of '58 arrived
Composed of friends to be,
Who shared that special time
In a place that made me...me.

The girls wore saddle oxfords,
And spit curls in their hair.
A skirt and sweater dyed to match
Made them look "so fair."

The boys wore white or dirty bucks
With jeans pegged at feet.
Ivy League buckles on charcoal pants
With skinny belts were neat.

We box-stepped to Sinatra
And bopped to *Stagger Lee*.
The Platters lured a bashful kiss
In a place that made me...me.

Friendship rings and matching shirts
Meant surely we were ready
To share the locker, wear the pin,
And say we're going steady.

Down the Down Stairs, up the Up
Stairs,
Race to Level Three.
For teachers punished tardiness
In a place that made me...me.

Learn Gilmartin, pass the test,
Write English papers, too.
We strove to hear Mrs. Peacock
Bestow, "Orchids to you!"

Middle age was thirty-five
And old was forty-eight.
Ancient were our parents,
But teenage life was great.

For youth was judged eternal,
Adulthood yet to be.
Elvis would live forever
In a place that made me...me.

So, now we tell our children
How Broughton used to be
Where growing up got started
In a place that made me...me.

Last Bell

So many history books are dry and silent, sadly lacking the voices of those who lived the history. Our book is lively with your voices, telling your stories and explaining your perspectives. To all of you who sent in your lives, the first big thank-you. You made this book worth reading again and again.

Sally Hayes Stevens and Jane Jordan Hubbard got me started with lots of help and lots of pictures and clippings. Thanks to you both. Sally went the second mile, giving me a place to stay, parties to attend and a dining room table to turn into a graphics workstation.

People who dug deep into closets and basements to provide major bundles of souvenirs are Patty Cooper Asher, Susan Stephenson Crotts, Jim Florence, Connie Pinyoun Gamble, Teddy Hoffmann, Helen Neblett Johnson, Marion Johnson Kuykendall, Jo Ann Clayton Leist, Ann Middleton Nance, Brenda Payne Millar, Linda Ely Price, Nancy Swicegood Reid, John Reitzel, Betsy Faye Pierce Schoonhagen, and Vicky Martin Langley, who had the only clean Latipac to scan for pictures. We owe them special thanks for much of the fun stuff. Tom Tarrant and Hunter George were Internet sleuths who helped us find the missing and spread the word.

Then in May came a lovely surprise. Roger Williams got in touch and offered us pictures he shot in high school. He was always behind the camera then for the Hi-Times and the Latipac. His are the only pictures we got of the Student-Faculty Game and the Senior Picnic, and not many had been sent for graduation. His images are a gift for always.

Double thanks go to Johanna McKevlin Grimes who edited the memory book for the Class of 1957. Her format inspired ours, and she was generous with her help. She was also my first boss in my first job, at The Raleigh Times, and got me started with the graphics skills I used for this project.

Now to serious business—the answers to Who Is It? Page 10 on the right is George Bailey, accomplished metalworker. The amazing career was claimed by Lars Bostrom, whose picture is at the top of that page. The seductress is still a mystery, as are most of the Student-Faculty game pictures. Please let us know if you can tell us who they are. The bodacious bikini babe is Vicky Martin Langley. Use the clue to figure out Princess Leia.

Thanks for the memories. It was a privilege to put them in this book.
